Meetings International

WORLD PEPTIDE CONGRESS

October 24-25, 2019 | Osaka, Japan

Theme:

Accelerating Current Innovations in Peptide Research

Dear Colleagues

Meetings International extends its welcome to "**World Peptide Congress**" scheduled on **October 24-25, 2019 in Osaka, Japan,** with the theme of "**Accelerating Current Innovations in Peptide Research**".

Peptide 2019 will serve an excellent experience and opportunities to enhance one's career. Join us in Osaka. It is comprised of 10 tracks designed to offer comprehensive sessions that address current trends in Peptide, and many more. Peptide 2019 composed of symposiums by world class researchers and experts.

Conference Highlights :

- Peptide Structure and Function
- Synthetic and Non-Natural Peptide Backbones
- Peptide Based Formulations
- Peptide Synthesis and Delivery
- Peptide Membrane Interaction
- Peptidomimetics
- Antimicrobial Peptides
- Peptides in Diseases
- Peptide Biophysics and Analytical Methods
- Post-Translational Modifications

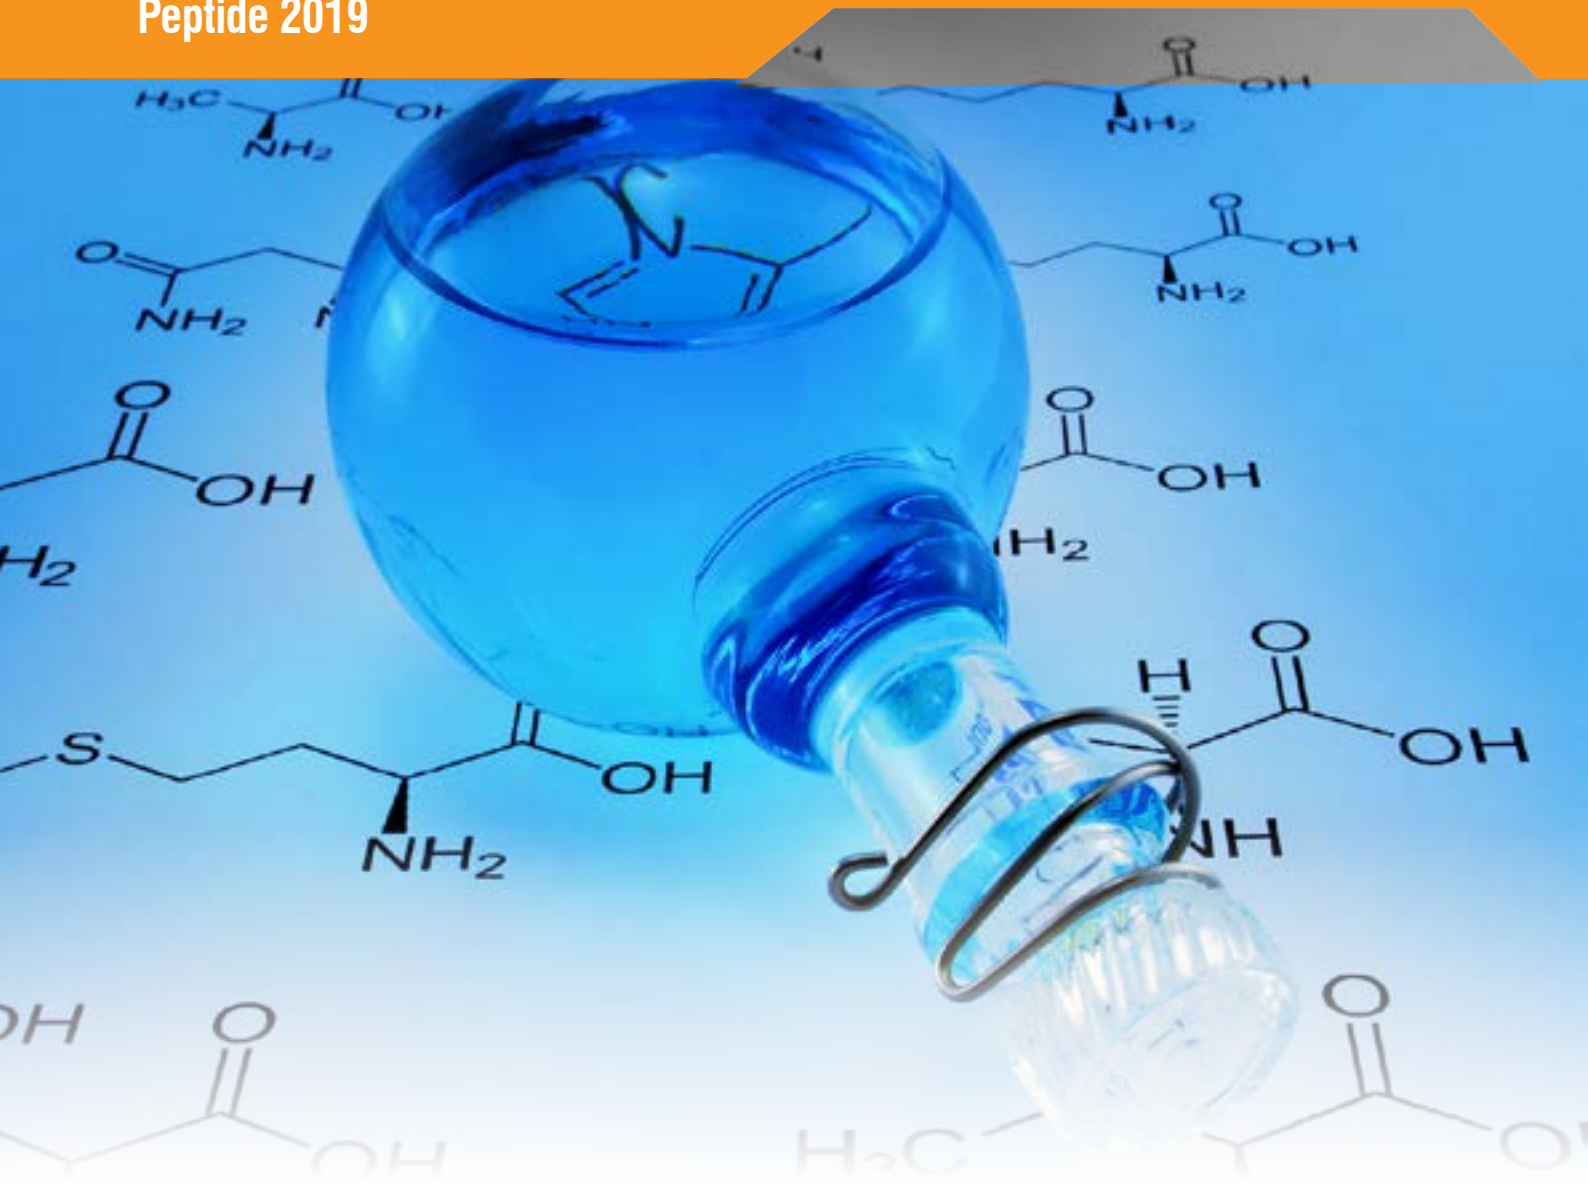

World Peptide Congress (October 24-25, 2019) Osaka, Japan	
Day 1	
24-Oct-19	
09:00-09:45	Registrations
09:45-10:00	Introduction
Keynote Session	
10:00-10:40	Title: Non-Invasive Delivery of Peptides: Advances in Oral Delivery
	Nozer Mehta Ph.D. , PeptideTechnologies,LLC, USA
10:40-11:20	Title: Purification of Peptides
	Nagana A. Goud, Auro Peptides, India
Networking & Refreshments 11:20-11:35	
Group Photo 11:35-11:40	
Oral Sessions-I	
11:40-12:00	Title: Cell Adhesion Peptide from Bovine Tendon Type I Collagen: potential candidate for biomaterial applications
	Shanthi C, Vellore Institute of Technology, India
12:00-12:20	Title: Machine Learning to Proteomics Data: Classification and Biomarker Identification
	Sujata Dash, Department of Computer Science, North Orissa University , India
12:20-12:40	Speaker slot available
12:40-13:00	Title: Effects of Extrusion and Enzyme Combined Extrusion on the Structure of Pea Protein
	Zhou quancheng, Zhou Quancheng School of Agricultural Engineering and Food Science, China
Lunch & Refreshments 13:00 - 14:00	
Oral Sessions-II	
14:00-14:20	Speaker slot available
14:20-14:40	Title: VITPOR-AI: A Novel Anticoagulant Peptide Targeting FXII
	Alka Mehta, Vellore Institute of Technology, India
14:40-15:00	Title: Transition metal complexes/organometallic compounds as anticancer/anti HIV drugs in pharmaceutical industry
	Prakash kinthada, Sree Vidyanikethan Engineering College, India
15:00-15:20	Title: Novel biologically important supramolecular synthons in short peptides
	Joanna Bojarska, Institute of General and Ecological Chemistry, Lodz University of Technology
15:20-15:40	Speaker slot available
15:40-16:00	Title: Engineered pH-responsive peptide based siRNA transporters for enabling enhanced siRNA delivery
	Abhijit Biswas, Indian Institute of Science Education and Research, Kolkata, India

About Osaka

Osaka is a selected town within the Kansai region of Japan. It is the capital town of urban center Prefecture and also the largest element of the Keihanshin Metropolitan space, the second largest metropolitan space in Japan. Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. Osaka is found within the wet subtropic climate zone, with four distinct seasons. The city rarely sees snowfall during the winter. Osaka University is a public Research university located in Osaka Prefecture, Japan. It is one of Japan's National Seven Universities and is generally considered as one of Japan's most prestigious Institutions of Higher Learning. The department of chemistry, graduate school of science, Osaka University, comprises the following four divisions covering Inorganic, Physical, Organic, and Interdisciplinary Chemistry. In addition, the department has cooperative with Thirteen Research groups of other Research Institutes.
