13th World Congress on

Petrochemistry & Natural Resources

Petrochemistry 2019

November 25-26, 2019 | Kyoto, Japan

INVITATION

Meetings International proudly announces the **13th World Congress on Petrochemistry & Natural Resources** scheduled during **November 25-26, 2019** in **Kyoto, Japan**. The conference emphasizes the theme "**Innovations in Petroleum & Sustainability in Natural Resources**".

Meetings International provides an international dais for scientists and petrochemistry professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences. To supply a forum for international researchers from varied areas of Petrochemistry & Natural Resources by providing a platform for appraisal of recent data, and to share latest cutting-edge analysis findings and results regarding all aspects of chemistry of the world.

Sincerely,
Operating Committee
Petrochemistry 2019

Important Dates

Early Bird: **May 1, 2019**

Registration Open: **June 10, 2019**

Abstract Submission Open: **June 10, 2019**

On Spot Registration: **November 25, 2019**

CONFERENCE HIGHLIGHTS

- Petro Chemistry and Process Engineering
- Drilling and Well Operation
- Pipelines and Transportation
- Onshore and Offshore Support
- Biofuels and Bioenergy
- Industrial Biotechnology and Bioprocessing
- Green Catalysis and Sustainable Energy
- Petrochemicals in Healthcare
- Environmental Chemistry and Engineering
- Environmental Hazards of Petroleum
- Pollution Control and Sustainable Environment

Meetings Int. offers

An unique platform for top level research and innovation

Kyoto, Japan

ABOUT KYOTO

Kyoto, once the capital of Japan, is a city on the island of Honshu. It's famous for its numerous classical Buddhist temples, as well as gardens, imperial palaces, Shinto shrines and traditional wooden houses. It's also known for formal traditions such as kaiseki dining, consisting of multiple courses of precise dishes, and geisha, female entertainers often found in the Gion district. Kyoto is located in a valley, part of the Yamashiro (or Kyoto) Basin, in the eastern part of the mountainous region known as the Tamba highlands. The Yamashiro Basin is surrounded on three sides by mountains known as Higashiyama, Kitayama and Nishiyama, with a height just above 1,000 metres (3,281 ft) above sea level. This interior positioning results in hot summers and cold winters. There are three rivers in the basin, the Ujigawa to the south, the Katsuragawa to the west, and the Kamogawa to the east.
