2nd International Conference on
PETROLEUM ENGINEERING 2019
Petroleum Engineering 2019

2nd International Conference On

Petroleum Engineering

May 22-23, 2019, Dubai

Day 1	
May 22 2019	
Keynote Forum	
Keynote 1	**Tittle: A fractal model for threshold pressure gradient of tight oil reservoirs**
	Xiuyu Wang, China University of Petroleum, China
Keynote 2	**Title: Enhancing the efficiency of oil and gas drilling by incorporating nanoparticles in drilling fluids: A review**
	Vryzas Z, Lebanese American University, Byblos, Lebanon
Oral Session	
Hydraulic Fracturing | Petro-Chemistry and Petro-Physics | Petroleum Distillation and Refining | Reservoir Engineering and Reservoir Simulation	
Oral 1	**Title: Environmentally friendly drilling muds based on green additives: Optimization and modeling the rheological and thixotropic characteristics**
	Kamal I., Soran University, Iraq
Oral 2	**Title: Project Risk Management Simplified**
	Mohamad Ragaie ElHelaly, Global Next Leadership Institute, USA
Oral 3	**Title: Tracking and Analysis of PCP Systems Failures, Petrodara Fields-Egypt**
	Ahmed Ibrahim, Dara Petroleum Company, Egypt
Oral 4	**Title: An Integrated Approach to Determine Low-Resistivity Pay Zones in Thin Laminated Clastic Reservoirs: A Case Study from the Gulf of Suez**
	Elhadidy A. M., Gulf of Suez Petroleum Company, Egypt
Oral 5	**Title: Mathematical Optimisation System to Support Oil & Gas Investment by Exporters of Developing economies**
	Ola Luqman Idris, University of Greenwich, UK
Oral 6	**Title: Geopetroleum assessment of the Ordovician and Triassic reservoirs in the Chotts region (Southern Tunisia) and maturity modeling of their supplying source rock (Fegaguira Formation)**
	Safa Kraouia, University Campus, Tunisia
Oral 7	**Title: Cloud Computing in Oil & Gas Supply-Chain Management-An Overview**
	Prathamesh Sapale, Vignan's Foundation for Science, India
***************Speakers Slot available***************	
***************Speakers Slot available***************	
Day 2	
23-May-19	
Keynote 1	**Title: Recovery of tight oil reservoir considering wettability alteration by adding surfactant additive agent**
	Shuai Li, PetroChina, China
Keynote 2	**Title: Application of a New Technique to History Matching Approach - A Successful Case Study**
	Fathe A. S. Abrahem, Petroleum Engineering College at Aljofra University, Libya
Oral Session	
Crude Oil Processing and Desulphurization | Advance Drilling Technologies and Safety | Global crisis and Major Challenges in Petroleum Engineering | Present Petroleum Economics and Market | Environmental Impacts in Petroleum Engineering	
Oral 1	**Title: On Evaluation of Fracture Opening and Compressibility of Hydrocarbon Reservoirs**
	Martyushev D.A., Perm National Research Polytechnic University, Russia
Oral 2	**Title: Measurement and Prediction of Condensate Gas Hydrates Formation Conditions – A Study Case**
	Mimoun Hadj, University Mhamed Bouguerra of Boumerdes, Algeria
Oral 3	**Title: A Novel Approach for Formulating CO_2 Foam based Fracturing Fluid by Synthesized Grafting Copolymerization to enhance its stability for HPHT Shale Reservoirs**
	Sahil Chaudahry, DIT University, India
Oral 4	**Title: Organic Source of Crude Oils and 1D basin Modeling for Cretaceous Rocks, Badr Concession, Abu Gharadig Western Desert**
	Abubakr F. Maky, Egyptian Petroleum Research Institute (EPRI), Egypt
***************Speakers Slot available***************	

Dubai, the city of gold
