Invitation

Pharmaceutical Chemistry 2018

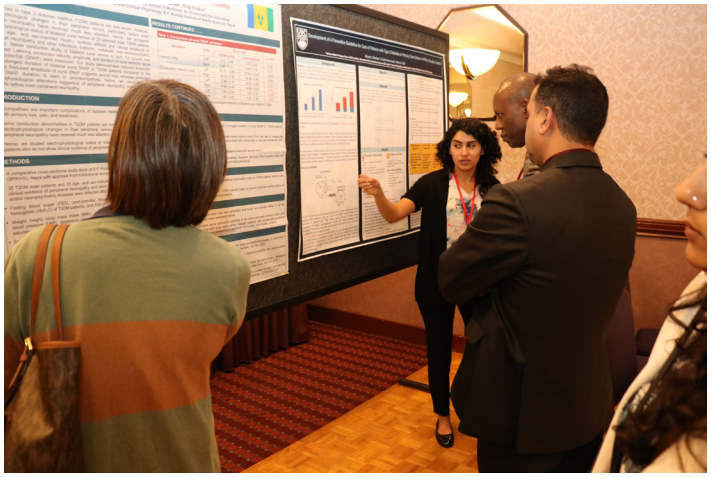

Meetings International proudly announces the "***International Conference on Pharmaceutical Chemistry***" scheduled during ***July 16-17, 2018*** in ***Paris, France***. The conference emphasizes the theme ***"Exploring the Challenges in Pharmaceutical Chemistry & Process of Drug Discovery for the Future"***.

Meetings International provides an international dais for scientists and pharmaceutical chemistry professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. Pharmaceutical chemistry and analytical chemistry together make eminent growth in the pharmacy or medical industry. A knowledge of the concepts of drug metabolism is useful in both the design of new drugs and the improvement of existing drugs. Thus it effects the living life in a affective way.

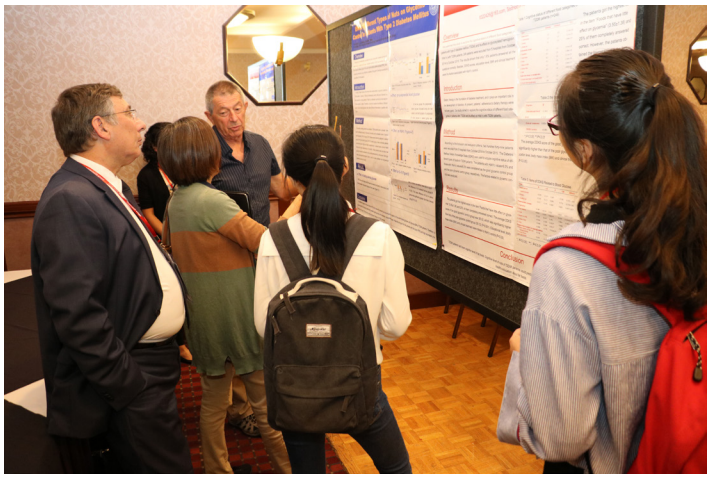

Sincerely,
Operating Committee
Meetings International

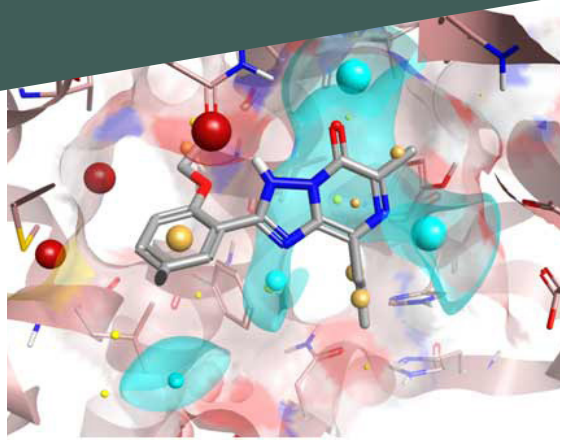

Conference Highlights

- Advanced Organic Chemistry and Inorganic Chemistry
- Biopharmaceutical and Biologic Drugs
- Clinical and Hospital Pharmacy
- Computational Chemistry and Chemical Biology
- Drug Delivery techniques
- Drug Designing Methodologies
- Drug Discovery and Development
- Drug Formulation / Pharmaceutical formulation
- Green Chemistry in Pharma Industry
- Heterocyclic Chemistry
- Nanomedicine and Nanotechnology
- Overview on Pharmaceutical Industry
- Pharmaceutical Analysis
- Pharmaceutical Biotechnology and Tissue Engineering
- Pharmaceutical Chemistry Novel Aspects
- Prospectives of Medicinal Chemistry
- Protein and Cellular Engineering and Statistical Mechanics
- Research Studies in Pharmacology
- Neuropharmacology & Psychopharmacology

Explore **Paris**

Paris is the capital and most popular city of France, the 3rd most visited city in the world. Paris is synonymous with all that is French. Paris known throughout the world as the “City of Light”. It is the most populated city in France. It is a major European city and a global center for fashion, art, gastronomy and culture. The last estimate in 1997 claimed 2,152,000 inhabitants lived in Paris. The language of the Parisians is French. Paris has a typical Western European oceanic climate which is affected by the North Atlantic Current. The overall climate throughout the year is moderately wet and mild. Paris has many historical buildings and art museums. Paris has a multi-cultural style, because nearly 20% of the people in Paris are from outside France. The Eiffel Tower is the most famous sight in Paris, built by Gustave Eiffel in 1889 with 6,300 tons of iron. The Eiffel Tower is not just the symbol of Paris but it’s the symbol of all of France. Once you reach the base of the tower, it is possible to visit the three levels, there is a lift to take you to each level. Eiffel tower is one of the most visited monuments in the world with nearly 7 million visitors a year.
