Reserve Your Seat Online at: **https://www.meetingsint.com/conferences/pharmachemistry**

SCIENTIFIC PROGRAM

Day 1

16-Jul-18

Registrations

Opening Ceremony

Keynote Forum

Giulio Tarro, Temple University, USA

Chang-Guo Zhan, University of Kentucky, USA

Networking & Refreshment Break

Alexander Sirotkin, University of Constantine the Philosopher, Slovakia

Jorge I. Gonzalez Borroto, Ferrer Internacional S.A., Spain

Session Introduction

Session Chair: Ian Martins, Edith Cowan University School of Medicine, Australia

Drug Discovery and Development via Structure and Mechanism Based Rational Design

Chang-Guo Zhan, University of Kentucky, USA

Plant molecules affecting ovarian functions and preventing reproductive effects of oil-related environmental contaminants

Alexander V. Sirotkin, Constantine the Philosopher University, Nitra, Slovakia

Enhanced T1 MRI Contrast and Fluorescence Stability within a Plasmonic Core-Shell Nanoparticle

Oara Neumann, Rice Unicversity, USA

Networking & Lunch Break

Using a plant-based platform for monitoring DNA damage response to genotoxic stresses

Alexandros G. Georgakilas, University of Athens, Greece

Workshop

A systematic analysis of physicochemical and ADME properties of kinase inhibitors approved by US FDA prior to 2016

Mehran F. Moghaddam, OROX BioSciences, USA

Synthesis of New Scaffolds of Isoxazolidine & Isoxazoline Derivatives using Some Novel Class of Nitrones via 1,3-Dipolar Cycloaddition Reaction using Greener Methodologies and Biological activities of the Cycloadducts

Bhaskar Chakraborty, Sikkim Government College , India

Stem cell target: an effective therpeutic stratergy in breast cancer

Gurusamy Mariappan, St.Mary's College of Pharmacy, India

Carbon Dots: A Tool for Cancer Screening and Photodynamic Therapy

Jagpreet Singh Sidhu, Indian Institute of Technology, Ropar, India

Session Discussion

Networking & Refreshment Break

Session Introduction

Session Chair: TBA

Freeze-drying protocol for liposomes co-encapsulating fisetin and cisplatin

Morgane Renault-Mahieux, Paris Descartes University, France

Modulation of PPARγ-dependent and Independent Pathways: Potential for Improving Clinical Outcomes for Diabetes Mellitus

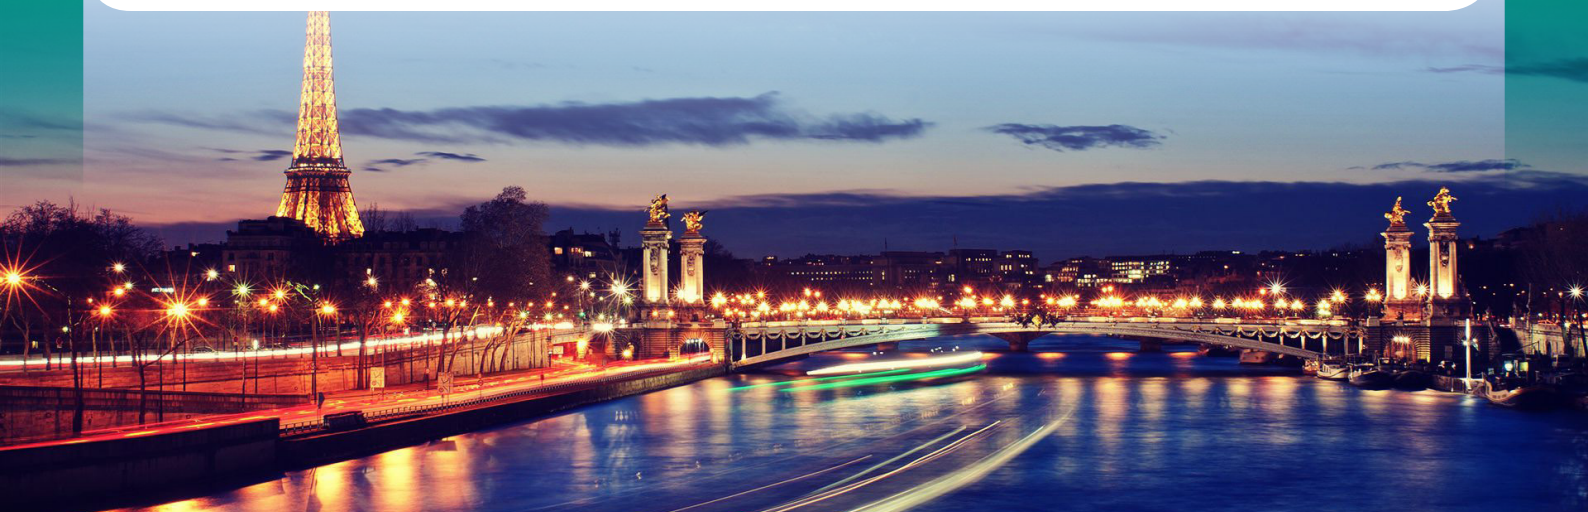

Tomader Ali, Fatima College of Health Science, Abu Dhabi, UAE

Synthesis of novel Spiro pyrazolo-1,4-dihydropiridine via One pot four component reaction

Bahman Ebrahimi Saatloo, University of Urmia, Iran

New class of peptides with their antimicrobial activities Amalesh Samanta, Jadavpur University, India
Day 2
17-Jul-18
Keynote Forum
Larisa Klapshina, Nizhny Novgorod State University, Russia
Sergey Suchkov, Moscow State Medical University, Russia
Alexandros G. Georgakilas, National Technical University of Athens, Greece
Christina Yuen Ki Leung, University of Hong Kong, China
Networking & Refreshment Break
Novel Multifunctional Porphyrazine Pigments for Bimodal Tumor Diagnostics, Photodynamic Therapy and Real Time Monitoring Larisa Klapshina, Nizhny Novgorod State University, Russia
Influence of Drug Formulation in Adherence, Efficacy and Clinical Safety" & "How formulation could impact in drug delivery Jorge Gonzalez Borroto, Ferrer Internacional S.A. Barcelona, Spain
Understanding the pharmacology and toxicology properties of transdermal Buprenorphine and Fentanyl to ensure the safety and Christina Yuen Ki Leung, The University of Hong Kong, China
Synthesis and Biological Evaluation of Novel Classes of Tyrosyl-DNA Phosphodiesterase 1 Inhibitors as anticancer drugs Olga Lavrik, Novosibirsk State University, Russia
Speaker Slot available
Workshop
Networking & Lunch Break
Session Introduction
Study to explore inclusion complexes of a sulfa drug with cyclic oligosaccharide molecules for advanced applications Mahendra Nath Roy, University of North Bengal, India
The effect of Saffron on different sperm parametrs in the men with normal spermatogenesis after freezing and thawing process Yousef Khazaei Monfared, Qazvin University of Medical Science, Qazvin, Iran
Speaker Slot available
Speaker Slot available

**Note: Tentative Program has been designed with the projected speakers names and titles, dates for this program are subject to change. Avail Speaker Opportunity, send your abstract & details to confirm your participation and Book Your slot for Pharmaceutical Chemistry-2018 on July 16-17, Paris, France. E-MAIL: pharmachemistry@annualmeetings.net

Explore Paris

Paris is the capital and most popular city of France, the 3rd most visited city in the world. Paris is synonymous with all that is French. Paris known throughout the world as the “City of Light”. It is the most populated city in France. It is a major European city and a global center for fashion, art, gastronomy and culture. The last estimate in 1997 claimed 2,152,000 inhabitants lived in Paris. The language of the Parisians is French. Paris has a typical Western European oceanic climate which is affected by the North Atlantic Current. The overall climate throughout the year is moderately wet and mild. Paris has many historical buildings and art museums. Paris has a multi-cultural style, because nearly 20% of the people in Paris are from outside France. The Eiffel Tower is the most famous sight in Paris, built by Gustave Eiffel in 1889 with 6,300 tons of iron. The Eiffel Tower is not just the symbol of Paris but it’s the symbol of all of France. Once you reach the base of the tower, it is possible to visit the three levels, there is a lift to take you to each level. Eiffel tower is one of the most visited monuments in the world with nearly 7 million visitors a year.

Paris Attractions

Arc de triomphe

conciergerie

Louvre

Notre dame de paris

Eiffel tower

Palais garnier

Pantheon

Osaka Ca Place de la concorde astle
