

Dear Colleagues,

It is my great pleasure and honor to kindheartedly welcome you on behalf of "The 13th International Conference on Pharmaceutical Chemistry", which is to be held at Paris, France during May 18-19, 2020. This international conference will gather scientists, pharmaceutical industrial leaders and experts across a variety of multidisciplinary fields ranging from basic sciences to applied sciences and clinical research in order to open-mindedly share recent advancements in pharmaceutical chemistry and to exchange ideas for resolving the most challenging issues. No matter whatever their scientific backgrounds are, all participants will have great opportunities to broaden their scientific knowledge and to increase the level and depth of their expertise by facing a convergence among diverse multidisciplinary scientific fields during this conference. Therefore, this international meeting will become an ideal chance for promoting and advancing these scientific fields and for strengthening and widening global networking.

I welcome you to this conference and hopefully want to see you at the beautiful city, Paris, France. In addition, I would like to sincerely thank the organizers of this international conference for giving me the privilege and honor to welcome all participants.

Ryong Nam Kim
Professor and PhD
Seoul National University
Seoul, Korea
