Welcome Message

The popularity of Formulation and Drug Delivery has increased significantly in recent years. The Drug Delivery Technology market is expected to reach USD 1,504.7 Billion by 2020 from USD 1,048.1 Billion in 2015, growing at a CAGR of 7.5% from 2015 to 2020. Drug delivery technology market offers a promising approach for the delivery of various kinds of drugs that have different molecular formulation. Drug delivery technology is aimed at maximizing the drug delivery at the targeted site so as to increase the efficiency of drug and proposing improved patient compliance.

Pharmaceutics Meeting will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will examine various formulation and drug delivery strategies. The event will cover Pre-Formulation, Formulation Aspects, Pharmacokinetics and Pharmacodynamics, Drug Targeting, Drug Delivery Routes, Nano Drug Delivery Systems, Nanotechnology in Drug Delivery, Pharmaceutical Nanotechnology, Smart Drug Delivery Systems, Applications of Biomaterials, Theranostics and Peptides and Protein Drug Delivery.

Additionally, the event will examine novel strategies for improving Vaccine Drug Delivery Systems, including stability and half-life will also be discussed along with novel routes of administration. Case studies will be presented that illustrate the progress made in developing efficacious drug therapeutics, while leaders in the field point the way to the future for these promising drugs.

Join the industry's leading drug development executives from numerous leading organizations to discuss and hear unique take-home examples, case studies and multiple drug development and delivery strategies to assist in reducing time-to-market on future drug products.

Attend to gain an unmatched experience in the Drug Delivery field.

Meetings International Pharmaceutics Meeting will offer you an unmatched attendee experience. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies from some of our workshops and symposiums. Engage in dynamic conversation with your industry peers at our multiple networking sessions, and takeaway novel drug development and commercialization strategies, which could speed up time to market and save your organization millions. We hope you will join us in Osaka, Japan this July to enhance your drug delivery capabilities, and increase time to market on therapeutics.

Sincerely,
Operating Committee

Who Should Attend?

- Pharmaceutical, biotech, CRO, diagnostic and academic professionals specializing in:
- Drug Delivery
- Large & Small Molecule Drug Discovery
- Molecular Biology
- Peptide Development and Optimization
- Protein Chemistry
- Therapeutics Peptide Chemistry
- Discovery Technology
- Specialty Delivery and Formulation Service Providers
- Specialty Peptide synthesis providers / CMOs
- CROs
- Instrument manufacturers
- Formulation
- Drug Development
- Nanotechnology
- QbD
- Delivery Devices
- Bioavailability
- New Products
- Pre-Formulation. Process R&D
- Stability, Analytical Development
- Biologics Research, Bio manufacturing and Manufacturing
- Solid State Chemistry
- Product Enhancement

Why Attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing innovative peptide drug development take-home strategies
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Industry and Academia Delegates
- Networking
- Exhibit hall with leading specialty manufacturing, instrumentation and development providers

Conference Highlights

- Pre-Formulation
- Formulation Aspects
- Pharmacokinetics and Pharmacodynamics
- Drug Targeting
- Drug Delivery Routes
- Nano Drug Delivery Systems
- Nanotechnology in Drug Delivery
- Pharmaceutical Nanotechnology
- Smart Drug Delivery Systems
- Applications of Biomaterials
- Vaccine Drug Delivery Systems
- Theranostics
- Peptides and Protein Drug Delivery

About Japan

Japan is a world apart – a cultural Galápagos where a unique civilization blossomed, and today thrives in contrasts of traditional and modern. The Japanese spirit is strong, warm and incredibly welcoming. Japan is a leading nation in scientific research, particularly technology, machinery and biomedical research. Japan leads the world in robotics production and use.

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries.

The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture.

The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light. The Osaka Museum of History, opened in 2001, is located in a 13-story modern building providing a view of Osaka Castle. Its exhibits cover the history of Osaka from pre-history to the present day. Osaka Museum of Natural History houses a collection related to natural history and life.
