Euroscicon.com

International Conference on

Experimental and Clinical Pharmacology and Toxicology

September 26, 2022 | Webinar

UK: Euroscicon Ltd
35 Ruddlesway, Windsor, Berkshire, SL4 5SF

September 26, 2022

Sessions will be hosted in GMT+1 (UK Timings)

Opening Ceremony

09:50-10:00 Introduction

Keynote Forum

10:00 - 10:30
Title: GVP module V, GVP module XVI, and GVP module XVI addendums
Joan D Souza, EMWA Volunteer, Switzerland

10:30 - 11:00
Title: Patient engagement during COVID 19
Mayada Alkhakany, Boehringer Ingelheim, Germany

11:00 - 11:30
Title: Risk of cancer with angiotensin-receptor blockers increases with increasing cumulative exposure: Meta-regression analysis of randomized trails
Ilke Sipahi, Acibadem University Medical School, Turkey

11:30 - 12:00
Title: Communication of COVID-19 vaccines risks to the public: Lessons learned
Manal Younus, ISoP Middle East Chapter Vice President, Iraq

Sessions: Biotechnology | Microbial Biotechnology | Genetics and Molecular biotechnology | Pharmaceutical Biotechnology and Drug Design | Stem Cell Biotechnology and Regenerative Medicine | Pharmacology | Pharmacovigilance And Risk Management | Postmarketing Surveillance | Adverse Drug Reactions | Pharmaceutical Formulations | Drug Design and Development | Dosage Forms

12:00 - 12:25
Title: OTC and Drug Safety
Naga Ramamoorthi, Safety Writer, United Kingdom

12:25 - 12:50
Title: The global issues of ensuring the continuity and efficiency of the performing pharmacovigilance processes by Marketing Authorization Holders (MAH) during mortal low, based on the experience of Ukraine since 24.02.2022
Rimma Battalova, QPPV Arterium Corporation, Ukraine

12 : 50 - 13:15
Title: Individual bacteria and bacteriophage counting assay using microfluidic device in darkfield imaging system
Sultan İlayda Dönmez, University of Reading, United Kingdom

13:15 -13-35
Title: The use of DArTseq technology to Identify new SNP and SilicoDArT markers related to Fusarium resistance and the yield-related traits components in maize
Aleksandra Sobiech, Poznan University of Life Sciences, Poland

Refreshment Break 13:35-13:55

13:55 - 14: 20	**Title: Products containing free cannabis, appropriate pharmacovigilance asset to a better quality of everyday life through better safety and efficacy** **Antonio Steardo,** Pharmaceutical and Professional Consultant, Italy
14: 20 - 14: 45	**Title: Determination of molecular markers associated with the agronomic traits in watermelon *(Citrullus lanatus)*** **Omer Faruk coskun,** Hatay Mustafa Kemal University, Turkey
14:45 - 15:05	**Title: Mitochondrial structure and activity can change** **Maryam Sadat Moosavi,** Ashrafi Isfahani University, Iran
15:05 - 15: 30	**Title: Adverse events following immunization associated with coronavirus disease 2019 (COVID-19) vaccines: A descriptive analysis from VigiAccess** **Peter Yamoah,** University of Health and Allied Sciences, Ghana
15:30 - 15: 55	**Title : ADME and Drug-Drug Interactions: *InVitro/In vivo* considerations during drug development, bioinformatic models any future advance?** **Antonio Steardo,** Rome La Sapienza V. Erspamer Institute Alumnus, Italy

Workshop

15:55 - 16:15	**Title : Cheminformatics as a catalyst for bed bench information flow: A workshop** **Isaac Karimi,** Razi University, Iran

Poster Presentation (16:15-16:45)

Poster1	**Title: CRISPR/Cas9 based LRP2 gene knockout model applied in evaluation of potential LRP2 substrates** **Durinova A,** Charles University, Czech Republic
Poster2	**Title: The amount of iron can control the level of mitochondrial activity and subsequently the synthesis and expression of genes** **Maryam Sadat Moosavi,** Ashrafi Isfahani University, Iran

Awards & Closing Ceremony
