Welcome Message

Meetings International proudly announces the Global Experts Meeting on Annual Meeting on Pharmacology scheduled during November 23-24, 2017 at Dubai, UAE. With a theme of "Research Advancements in Pharmacological Field ".

Meetings International provides a Global Platform for Pharmacology Experts, Scientists, Researchers and Pharmaceutical Professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

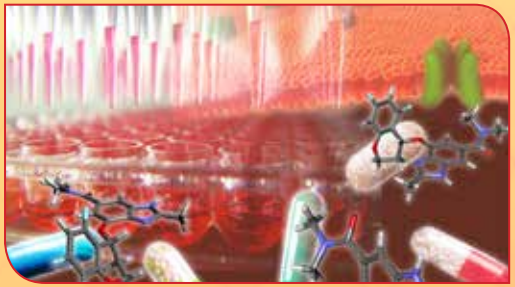

Pharmacology Meeting 2017 is a perfect platform to present and discuss current perspectives in drug research and development. Pharmacology is the study of interaction of chemical with living systems. It is a medical science that forms a backbone of the medical profession. So, it's important to describe the pharmacological basis of therapeutics in order to maximize the benefits and minimize the risks of drugs to recipients. It is an integrative rather than an autonomous science, drawing on the techniques and knowledge of many allied scientific disciplines. Hence it will be a platform for researchers, scientists, professional involved with drug development. It is with better understanding of Pharmacology one can know the right dosage of drugs. More research in pharmacology deals with identifying and responding to drug interactions reactions and side effects and treat accordingly. It is useful to understand the process of drug intake, absorption, distribution, metabolism and elimination. More intensive study with the interaction between drug and its effect helps in identify the properties of ideal drugs and otherwise.

Pharmacology Meeting 2017 conference will impact an attractive moment to meet people in the research field and therefore it takes a delight in opening a gate to meet the ability in the field, young researchers and potential speakers. The conference also includes essential topics on Pharmacology, Advances in Pharmacological Research, Toxicology and Pharmacology, Pharmacological Testing, Clinical pharmacology and receptor theory, Food and Chemical Toxicology, Drug Screening and Discovery, Environmental Pharmacology Toxicology, Pharmacogenetics and Pharmacogenomics, Applied Pharmacology, Cardiovascular Pharmacology, Pharmacokinetics and Pharmacodynamics, Neuropharmacology & Psychopharmacology, Nursing Pharmacology, Biochemical Pharmacology.

Attend to gain an unmatched experience in the Pharmacology field.

Meetings International Pharmacology Meeting will offer you an unmatched attendee experience. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies from some of our workshops and symposiums. Engage in dynamic conversation with your industry peers at our multiple networking sessions, and takeaway novel drug development and commercialization strategies, which could speed up time to market and enhance your marketing strategies. We hope you will join us in Dubai, UAE this August to enhance your research capabilities, and increase time to market on therapeutics.

Sincerely,
Operating Committee

About Dubai

Dubai is the most populous city in the United Arab Emirates (UAE). It is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area. Dubai is to host World Expo 2020.

Dubai has emerged as a global city and business hub of the Middle East. It is also a major transport hub for passengers and cargo. By the 1960s, Dubai's economy was based on revenues from trade and, to a smaller extent, oil exploration concessions, but oil was not discovered until 1966. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited and production levels are low: today, less than 5% of the emirate's revenue comes from oil. The emirate's Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial services. Dubai has recently attracted world attention through many innovative large construction projects and sports events. The city has become iconic for its skyscrapers and high-rise buildings, in particular the world's tallest building, the Burj Khalifa. Dubai delivers a world class education and also immense job opportunities for well-educated students.
