Invitation

Meetings International proudly announces the ***Annual Meeting On Pharmacology*** scheduled during ***Tokyo, Japan June 18-20, 2018***. The conference emphasizes the theme "***Research Advancements in Pharmacological Field***".

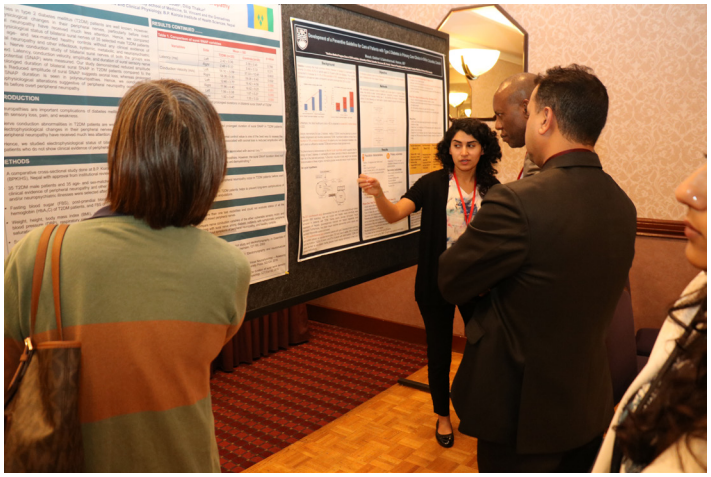

Meetings International provides an international dais for scientists and plant science professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of plants has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the plant research to produce more production to support the ever-growing population of the world.

Sincerely,
Operating Committee
CEO and Founder

Explore **Tokyo**

Tokyo is Japan's capital and the world's most populous metropolis. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. It has neon, skyscrapers, salaryman crowds, packed trains, cutting-edge architecture and futuristic technology. But it also has ancient shrines, plant-covered wooden houses, cycling grannies, old-school sweet shops and village-like lanes.
