

EuroSciCon

6th Edition of International Conference on

Plant Genomics

June 08-09, 2020
Frankfurt, Germany

Theme:

Current Advancements in the Field of Plant Genomics

EuroSciCon

Plant Genomics

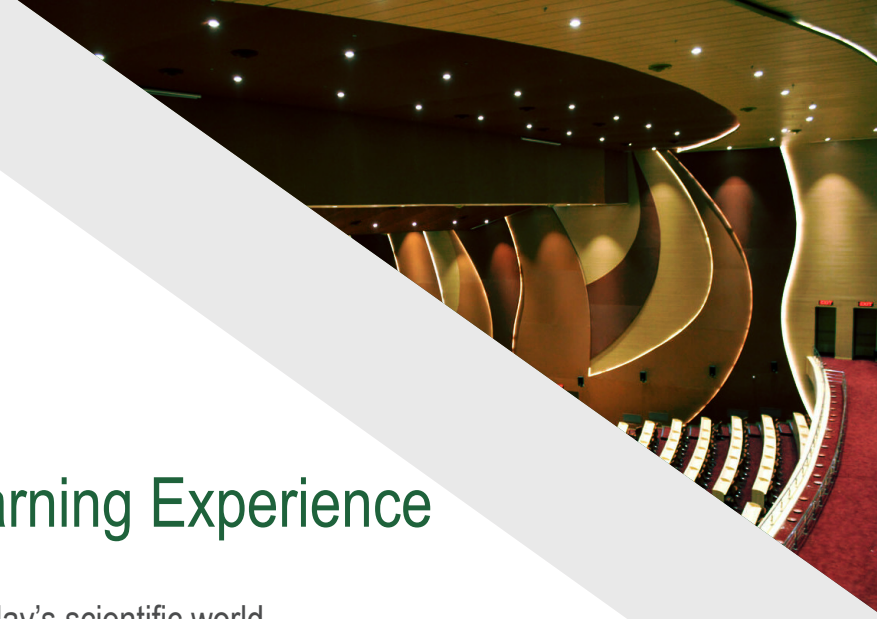

2020

Invitation

Welcome to Germany, the shopping capital of the Middle East. EuroSciCon is proud to host the 6th Edition of International Conference on Plant Genomics, June 08-09, 2020, Frankfurt, Germany. This year's **Theme is Current Advancements in the Field of Plant Genomics**. Agronomists, Geologist, Students, Agricultural Advisors, Plantation Companies, Agricultural Consultants, Private sectors, academicians and researchers. The representations include Agricultural universities, agricultural chemical industries from all around the globe.

The topics covered at the conference would range a spectrum of Plant Science, Horticulture, Forestry, Agriculture, Agronomy, Plant Genomics. Attendees of the conference would be delighted to witness various interactive workshops, keynote lectures, speaker talks, and poster presentations and most significantly the exhibitions held by the top Agriculture Chemical industries. The conference also has Young Research Forum, where the budding researchers are encouraged to give oral presentations.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

June 08-09, 2020
Frankfurt, Germany

EuroSciCon

Plant Genomics

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 19 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ technologists accessing the website, Plant Genomics 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Plant Genomics 2020 Salient Features:

The conference gives you one of the finest opportunities to engage with the eminent doctors and researchers from the area of Plant Science, Horticulture, Forestry, Agriculture, Agronomy, Plant Genomics. Most prominent speakers, advanced technologies and discoveries in the field of Plant Genomics; are the highlights of this two day conference.

June 08-09, 2020
Frankfurt, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Plant Genomics

2020

Who'd be attending?

Plant Genomics 2020 plays a host for internationally renowned Agronomists, Geologist, Students (Post graduates, Doctorates), Agricultural Advisors, Plantation Companies, Agricultural Consultants, Private sectors, academicians, researchers and business professionals. The representations include premier Agricultural universities, hospitals, research centers and agricultural chemical industries from all around the globe.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Crop Improvement & Plant Virology
- Arabidopsis
- Agricultural Genomics And Cereal Genomics
- Horticulture Sciences
- Plant Nutritional Genomics
- Plant Signaling And Chemical Signaling
- Genome Sequencing
- Plant Tissue Culture
- Crop Improvement And Plant Hormones
- Plant Synthetic Biology And Plant Transcriptome
- Plant Breeding
- Plant Proteomics
- Bioinformatics And Data Analysis
- Genetically Modified Organisms
- Molecular Breeding
- Plant Science
- Plant Nanotechnology
- Plant Pathology
- Plant Metabolism And Regulation
- Plant Genetics And Epigenetics
- Plant Genome Engineering Strategies And Developments
- Plant Functional Genomics And Biotechnology
- Plant Genomics Applications
- Plant Anatomy, Metabolism, Regulation And Phytology

EuroSciCon

Plant Genomics

2020

About Destination Germany

Germany is a Western European country with a landscape of forests, rivers, mountain ranges and North Sea beaches. Berlin is its capital.

Germany has a population of 81 million people.One-third of Germany is still covered in forests and woodlands. University is free for everyone (even non-Germans). Germany is the seventh-largest country in Europe. Covering an area of 137,847 square miles, of which 34,836 square miles is covered by land and 3,011 square miles contains water. Berlin has the largest train station in Europe. Berlin is 9 times bigger than Paris. The first printed book was in German.Germany is one of the world's leading book nations. Publishing around 94,000 titles every year. The Christmas tree (Tannenbaum) tradition came from Germany.German is among the ten most commonly spoken languages in the world. Germany has been called the "Land of Poets and Thinkers". About 50 % of the Germans are able to speak English as a second language.

Agriculture in Germany:

Over 80 percent of Germany's land is used for agriculture and forestry. Attracted by a better income, many farmers left agriculture for the industrial and service sectors. Chief agricultural products include milk, pork, beef, poultry, cereals, potatoes, wheat, barley, cabbages, and sugar beets. In some regions wine, fruits, and vegetables, and other horticultural products play an important role. Agricultural products vary from region to region. Fruit orchards and vegetable farms surround almost all large cities. Special funds were available for disadvantaged areas where agriculture was an important economic and social factor.
