Plant Genomics 2020

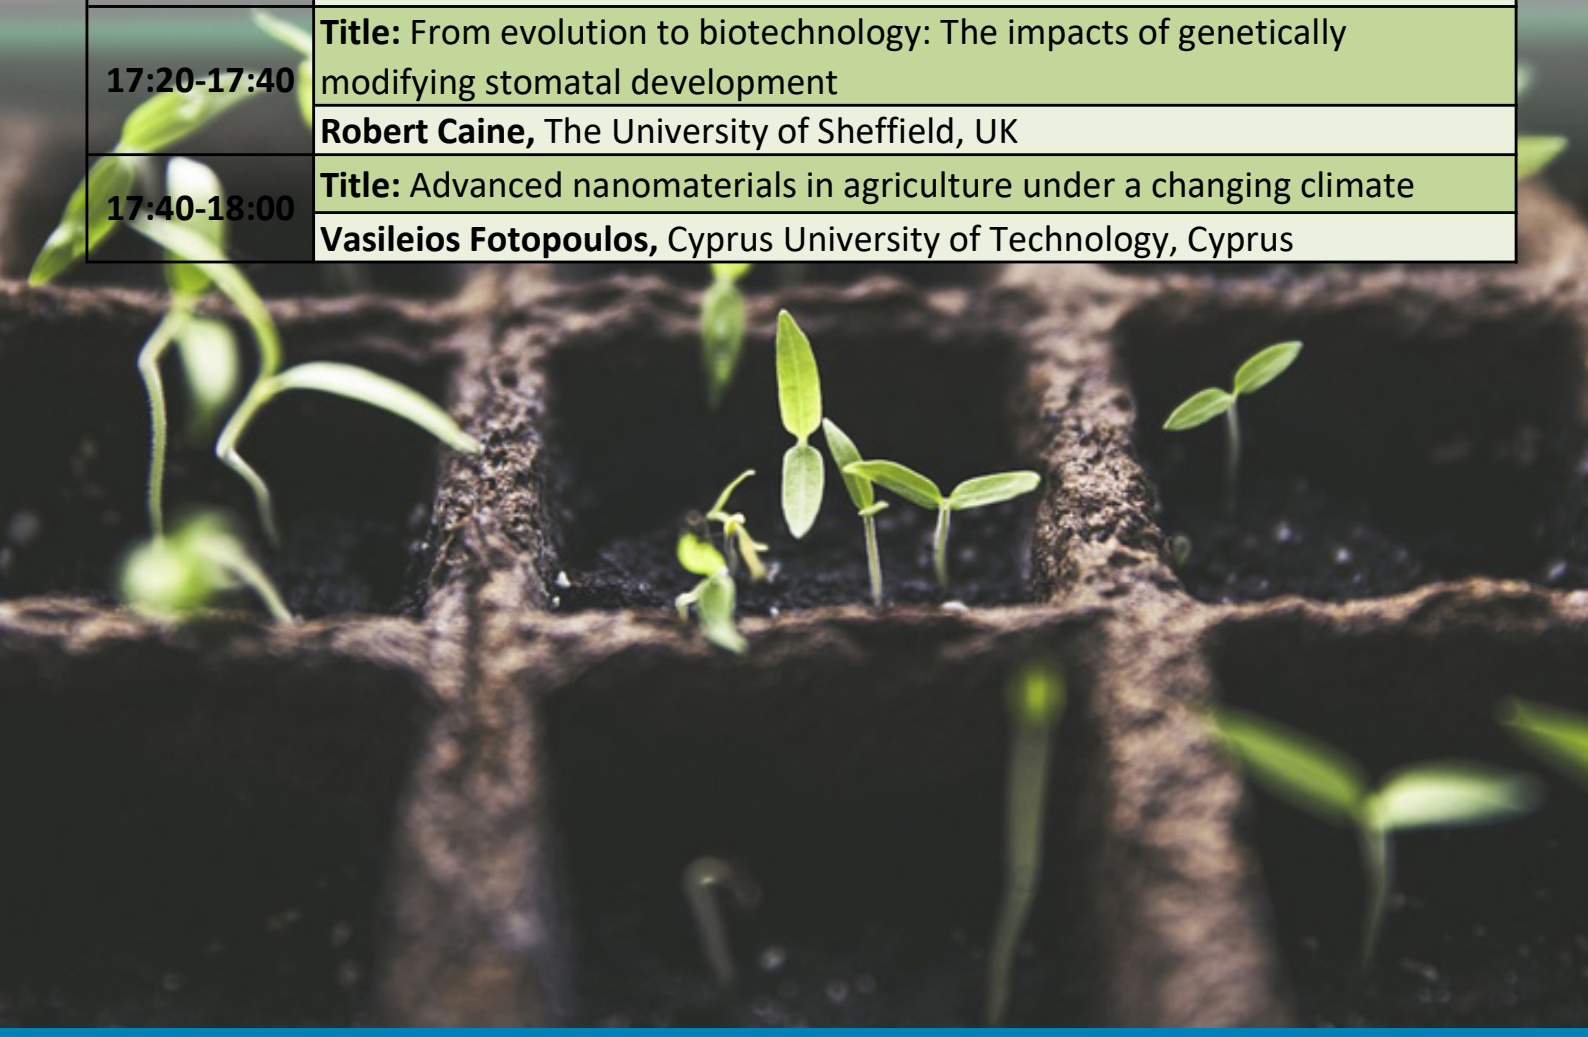

Webinar on Plant Genomics and Plant Science

Date
May 26, 2020

Plant Genomics 2020

Webinar on Plant Genomics and Plant Science	
Date: May 26, 2020 | Time Zone: Osaka, Japan(GMT+9)	
16:00-16:20	**Title:** Identification of low pH induced differentially expressed genes in rice: An experimental and computational approach
	Dev Mani Pandey, Birla Institute of Technology, India
16:20-16:40	**Title:** Variation of in vitro dry matter digestibility in *Brachiaria ruziziensis* populations
	Sarayut Thaikua, Bureau of Animal Nutrition Development, Thailand
16:40-17:00	**Title:** Radiation Technology - A century in service of humanity
	Mohan C. Kharkwal, Indian Agricultural Research Institute, India
17:00-17:20	**Title:** The importance of standards for essential and seed oils crops of indigenous plants used in Southern Africa
	Karen Swanepoel, Southern African Essential Oil Producers Association, South Africa
17:20-17:40	**Title:** From evolution to biotechnology: The impacts of genetically modifying stomatal development
	Robert Caine, The University of Sheffield, UK
17:40-18:00	**Title:** Advanced nanomaterials in agriculture under a changing climate
	Vasileios Fotopoulos, Cyprus University of Technology, Cyprus
