5th World

PLANT GENOMICS AND PLANT SCIENCE CONGRESS

Dates: June 29-30, 2021

Venue: Paris, France

Theme: Surpassing the Vision on Plant Genomics and Plant Science

Plant Genomics 2021

We are welcoming you for our upcoming "**5th World Plant Genomics and Plant Science Congress**" will be scheduled in **Paris, France** during **June 29-30, 2021** which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations, and Exhibitions. The theme of the conference is around, "*Surpassing the Vision in Plant Genomics and Plant Science*".

Meet your target audience and explore your product and services.

- To Meet Experts
- Learning In a New Space
- New Tips & Tactics
- Certification
- Global Networking
- Rebuild New Customer Base
- Brand Establishment

Abstract Submission

Plant Genomics 2021

Conference Highlights:

- Plant Genome Science
- Agricultural Science
- Molecular Plant Breeding
- Stress Signalling in Plants
- Plant Proteomics and Plant Science
- Plant Morphology and Plant Metabolism
- Crop Improvement and Plant Virology
- Plant Nutritional Genomics
- Plant Biotechnology
- Medicinal and Aromatic Plant Sciences
- Plants and Climate Change- Overcoming Measures

Deadlines:

Abstract submission : **March 22, 2021**

Early bird registration: **December 26, 2020**

Registration closed by: **June 29, 2021**

Exhibitors & Sponsors

MP Biomedicals

At **MP Biomedicals,** our focus is on reducing the day-to-day complexities and uncertainties that scientists face so that you can move your projects forward quickly and confidently.Our robust, easy-to-use instruments and reagents can be counted on to work every time, delivering high quality samples and high quality data day-in and day-out.Our global reach ensures that we can source the reagents you need, consistently and uninterruptedly, even when other vendors simply can't deliver.

Our flexibility and ability to customize orders gives you the products and services that work best for your projects and not just the products that we've configured to meet the lowest common denominator.And our fast response time to customer inquiries ensures that your workflows keep on flowing.

Plant Genomics 2021

Paris, France's capital is a major European city and a global centre for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Paris is in the Paris department of the Paris-Isle-of-France region. The French historic, political and economic capital, with a population of only 2.5 million is located in the northern part of France. Paris has a population of more than 2 million people, and the city is divided into 20 "arrondissements" (districts) which are numbered 1 to 20. The river Seine divides the city into the Rive Gauche on the south and the Rive Droite on the north banks of the river. The streets where made much wider, places and squares where built and the buildings completely rebuilt.
