Invitation

Meetings International proudly announces the ***International Conference On Plant Science and Molecular Biology*** scheduled during ***June 18-20, 2018*** in ***Paris, France***. The conference emphasizes the theme "***Explore the Scope of Plant Molecular Biology***".

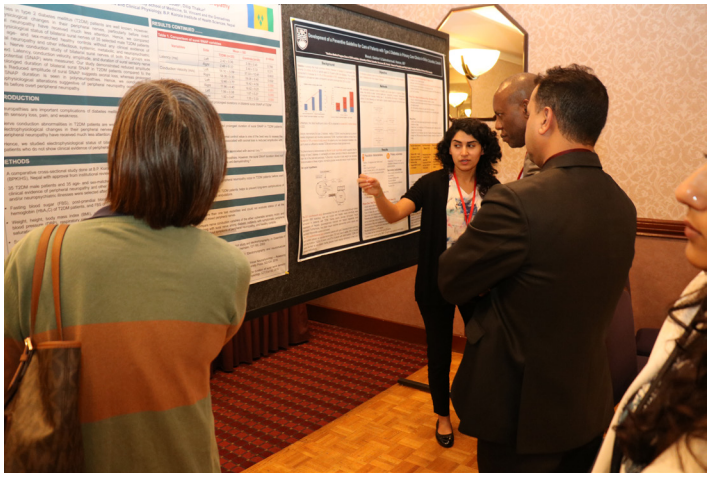

Meetings International provides an international dais for scientists and plant science professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of plants has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the plant research to produce more production to support the ever-growing population of the world.

Sincerely,
Operating Committee
CEO and Founder

Explore **Paris**

Paris, France's capital, is a major European city and a global center for art, fashion, gastronomy and culture. The city is often referred to as the " The city of Light" because it was one of the first cities to adopt the gas street lighting. In terms of financial sectors and GDP Paris is the largest economy in Europe. In terms of Cost of living Paris ranked second most expensive city. The economy of the city is largely based on the service and commerce. In terms of culture, Paris has many famous artistes and it has attracted artistes from across the world who arrive in the city to educate themselves and to seek inspiration from its vast pool of artistic resources and galleries.

Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.
