4TH INTERNATIONAL PLANT SCIENCE AND GENOMICS CONGRESS

MARCH 23-24, 2020 | MIAMI, USA

Plant Science 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 4th International Plant Science and Genomics Congress scheduled during March 23-24, 2020 in Miami, USA. The conference emphasizes the theme "Approaches to implicate current progresses and future perspectives on Plant Genomics".

This conference aims at connecting researchers, students, doctors, scientists who are involved in advancement of plant science, biotechnology and genomics. This conference provides the best platform to the scientific community and industry to share their experiences and researches. This conference includes proper presentation along with workshops,exhibitions,video lectures and scientific discussions. This event will focus on crop development as well as growth improvement along with plant research and forestry research which will be of great benefit.

Sincerely,

Operating Committee

Plant Science 2020

Conference Highlights

- Plant Science and Genomics
- Breeding and Molecular Breeding
- Agricultural Research and Horticulture
- Forest Science and Technology
- Tissue Culture and Plant Proteomics
- Plant Fertilizers and Pesticides
- Anti-Microbial and Medicinal Plants
- Tissue Engineering and 3D Printing
- Plant Taxonomy and Pathology
- Plant Nano technology and Microbiology
- Soil Science and Crop-Seed Science

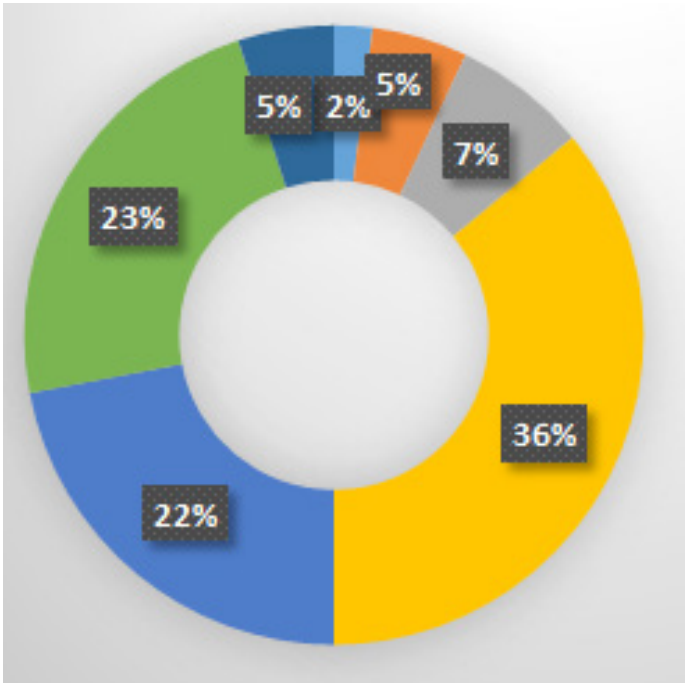

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Miami

Miami is an American city and is the cultural, financial and economical center of South Florida. Miami has an area of about 56 square miles. It is situated between the Everglades to the west and Biscayne to the east. Miami is the 6th most populated city in USA. It has a population of around 470,914. Miami is major in finance, culture, entertainment, arts, commerce and international trade. Miami is one of the most popular vacation spots. It is famous for its white sand surfside hotels, trendsetting night clubs and colorful art deco buildings.
