6th World

PLANT GENOMICS AND PLANT SCIENCE CONGRESS

Dates: April 29-30, 2022

Venue: Osaka, Japan

Theme: Surpassing the Vision on Plant Genomic Sciences

Plant Genomics 2022

We are delighted to announce **6th World Plant Genomics and Plant Science Congress** will be scheduled during **April 29-30, 2022** in **Osaka, Japan** which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations and Exhibitions. The theme of the conference is, "***Surpassing the Vision in Plant Genomic Sciences***". Plant Genomics 2022 is the premier event that brings together a unique and international mix of experts, researchers and decision-makers both from academia and industry across the globe to exchange their knowledge, expertise and research innovations to build a world-class plant genomics conference. Plant Genomics Event encourages focusing mainly on aspects such as breeding, molecular marker development, plant physiology, disease resistance, genome integrity, biotechnology applications and **CRISPR-Cas9 system** as well understanding tools to overcome barriers and enable successful data analysis and management. Presentations concentrate not only particular to plant genome science but also crop and forestry research ranging from wheat, barley, maize and rice to potato, tomato, Arabidopsis, biofuels and various fruits.

Abstract Submission:

Registration link

https://www.meetingsint.com/conferences/plantgenomics/registration

Conference Highlights

- Plant Genome Science
- Agribusiness
- Molecular Plant Breeding
- CRISPR-Cas9 system
- Plant Genome Integrity
- Plant Biotechnology
- Plant Virology
- Medicinal Plants
- Plant Physiology
- Plant Genetics Market

Target Audience

- Plant Genomics Students, Scientists
- Plant Genomics Researchers
- Plant Genomics Faculty
- Agricultural Colleges
- Plant and Agriculture Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Software developing companies
- Manufacturing Agricultural Devices Companies

Supporting Journals

- Journal of Plant Physiology & Pathology
- Journal of Soil Science & Plant Health
- VEGETOS: An International Journal of Plant Research

Deadlines

Abstract submission: November 24, 2021
Early bird registration: November 12, 2021
Registration closed by April 29, 2021

Osaka is located in the centre of the Kinki region in the Midwest Japan covers the compact prefecture land area in Japan, but boasts of largest population and highest population density second only after the capital, Tokyo. Mountains surround three sides of the prefecture and the west faces the arc-shaped Osaka Bay. In Osaka City the Osaka Castle with a five-layer donjon as its core, on a lawn park that stretches for about 60,000 square meters. During the cherry blossom season in the spring, this park is especially crowded with a hanami (cherry blossom viewing) crowd. In contrast to Kita with Umeda as its core, Minami is an area with core cities Namba, a popular business, shopping place and Dotonbori with many restaurants on both sides of Dotonbori-gawa River.
