International Conference on Plastic Engineering & Polymer Science

Plastic Engineering 2019

June 25-26, 2019 | Tokyo, Japan

INVITATION

Plastic Engineering 2019

Meetings International proudly announces the **International Conference on Plastic Engineering & Polymer Science** scheduled during **June 25-26, 2019 at Tokyo, Japan** The conference emphasizes the theme "**Excellence in Research and Innovation for Humanity**".

Meetings International provides an international dais for Scientists, Dermatologists, Trichologists, Plastic Surgeons and other professionals to Exchange Ideas, Knowledge and Networking at its **250+ International Conferences**. This Polymer Science conference deliver together academicians, professors, researchers, and scientists, students in all the areas of Biomaterials, Polymer science, Nanotechnology and Chemistry to collaborate and intend their leading scientific researches with global esteemed scientists and advance progress in biopolymers and bioplastics. Practitioners and educators to current and deliberate the most recent modernization trends and concerns as well as constructive challenges come across and solutions maintain in the fields of Plastics Engineering and Polymers.

Sincerely,
Operating Committee
Plastic Engineering 2019

Important Dates

Early Bird: **January 31, 2019**

Registration Open: **September 20, 2018**

Abstract Submission Open: **January 25, 2019**

On Spot Registration: **June 25, 2019**

Tokyo, Japan

https://www.meetingsint.com/conferences/plasticengineering

CONFERENCE HIGHLIGHTS

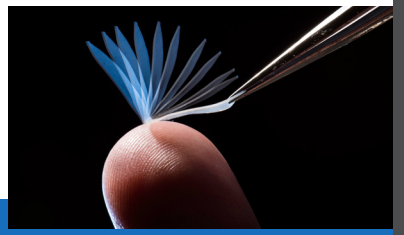

- Plastics Engineering Applications & Innovations
- Composite Plastic Materials
- Polymer Chemistry and Physics
- Nano material and Nanotechnology
- Ceramics and Composite Materials
- Polymer Degradation and Stabilization
- Polymers in Biotechnology, Medicine and Health
- Processing & Analysis of Polymer melt flow
- Thermal and Mechanical Properties of Plastic
- Renewable Resources and Biopolymers
- Polymer Material Science and Engineering
- Polymer Industry Market & the next generation

Meetings Int. offers

An unique platform for top level research and innovation

Plastic Engineering 2019

Tokyo, Japan

https://www.meetingsint.com/conferences/plasticengineering

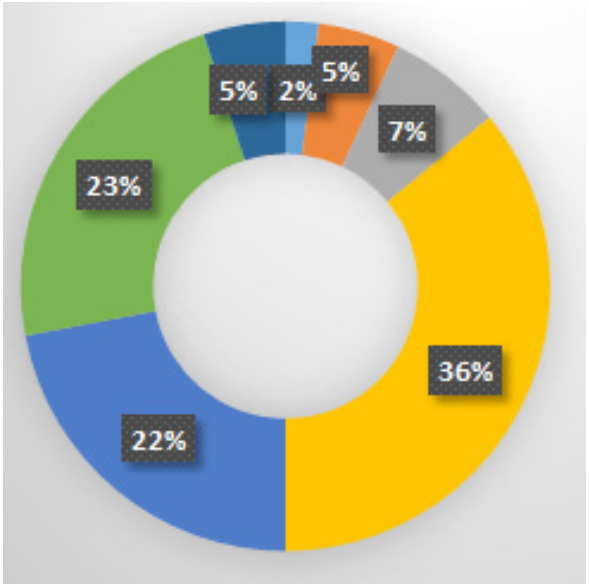

WE VALUE

Quality research

To identify the future directions of research

Peer review and high quality publication

USEFUL LINKS

ABOUT TOKYO

Tokyo is often specify to as a city but is formally known and governed as a “metropolitan prefecture”, which modify from and associate elements of a city and a prefecture, a unique to Tokyo. There are over 6,000 distinctive parks and gardens covering more than 1,000 hectares (2,471 acres) in the city. Many parks are correlate with shrines and temples. The Meiji Shrine is placed in a deep wood with very large trees. The shrine also has a famous iris garden. Other gardens can be found at Nezu Shrine, Nishiarai Daishi Temple and Kameido Shrine During a trip to Tokyo, visitors should explore out both the bustle--like the pulsing nightlife in Shinjuku or the world-famous most fractional intersection in Shibuya Encompassed by these are the Tokyo National Museum the National Museum of Science, the National Museum of Western Art.
