2019

Invitation

Welcome to Seoul, the City of Arts and Science, and experience the science of reconstruction illuminated as never before. EuroSciCon is proud to host the World Congress on Plastic surgery at September 09-10, 2019 in Seoul, South Korea. This year's theme is Novel Expansions and Scientific Approaches in Plastic Surgery and Reconstruction Science. Plastic surgery 2019 will provide an unprecedented opportunity for Nurses of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Nurses, Dermatologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Plastic surgery Conference is the perfect venue not only to dive into your particular nursing interests but also to expand the scope of your knowledge. Tracks are devoted to subjects such as the Cosmetic Dermatology, Liposuction, Travel nuse and so on.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Surgery forum in person is your active participation.

About Destination Seoul

Seoul is one of the most populated cities in the world. The Greater Seoul Area has almost 23 million inhabitants of which 10.3 million are residents of the Seoul city itself. Therefore, the Greater Seoul Area is the second most populated metropolitan area in the world, following only Greater Tokyo. Because of Seoul's relatively small area it is also one of the densest cities in the world. Seoul knows 4 distinct seasons. Its climate can be described as a land-climate, despite its proximity to the seas. The summers are hot with a high humidity, but are also inclusive of Seoul's raining season, between June and September. Seoul has been described as the world's "most wired city", ranked first in technology readiness by PwC's Cities of Opportunity report. Seoul is among the world leaders in Internet connectivity.
