VISIT US

Dear Attendees,

The **4th International Conference on Plastic & Aesthetic Surgery** heartily welcomes the worldwide audience to participate in the conference that goes to be controlled on **April 25-26, 2024** in **Rome, Italy**. **Plastic Surgery 2024** will focus Plastic surgery encompasses a diverse array of surgical and non-surgical procedures aimed at altering, enhancing, or restoring the form and function of various body parts. It is categorized into reconstructive surgery, which addresses defects caused by congenital conditions or trauma, and cosmetic (aesthetic) surgery, which refines features for personal or psychological reasons. Plastic Surgery 2024 aims to assemble leading educational scientists, analyzers, and analysis students to exchange and share their experiences and research results on all aspects of Plastic Surgery and its development. There's an intensive international perspective at this conference with speakers, poster presenters, sponsors, and exhibitors from Europe, the US, and Asia/Pacific.

Sincerely,
Operating Committee
Plastic Surgery 2024

Plastic Surgery 2024

VENUE:

Young Research Forum:

Meetings International is announcing the Young Scientist Awards through the 4th International Conference on Plastic & Aesthetic Surgery (Plastic Surgery 2024) which is scheduled in Rome, Italy during April 25-26, 2024. This Plastic Surgery focuses on “Accelerating Advance Research and Innovation in Plastic & Aesthetic Surgery”.

Plastic Surgery 2024 will recognize participants who have significantly added value to the scientific community of Microfluidics and provide them with outstanding Young Scientist Awards. The Young Scientist Award will provide a strong professional development opportunity for young researchers by meeting experts to exchange and share their experiences at our international conferences..

Benefits:

The Young Scientist Feature is a platform to promote young researchers in their respective areas by giving them a chance to present their achievements and future perspectives.

Acknowledgment as YRF Awardee Promotion on the conference website, Young Researcher Awards, and certificates Link on the conference website Recognition on Meetings Int. Award Page Chances to coordinate with partners around the world Research work can be published in the relevant journal without any publication fee

DAY 01/ April 25, 2024

Time	Session
09:00 - 10:00	Keynote Forum
10:00 - 10:15	Coffee/Tea Break
10:15 - 13:00	Sessions
13:00 - 13:30	Lunch Break
13:30 - 15:30	Sessions
15:30 - 15:45	Coffee/Tea Break
15:45 - 17:30	Sessions

DAY 02/ April 26, 2024

Time	Session
09:00 - 10:00	Keynote Forum
10:00 - 10:15	Coffee/Tea Break
10:15 - 13:00	Sessions
13:00 - 13:30	Lunch Break
13:30 - 15:30	Sessions
15:30 - 15:45	Coffee/Tea Break
15:45 - 17:30	Sessions

Rome, Italy

The Roman countryside, the Campagna, was one of the last areas of central Italy to be settled in antiquity. Rome was built on a defensible hill that dominated the last downstream, high-banked river crossing where traverse of the Tiber was facilitated by a midstream island. This hill, Palatine Hill, was one of a group of hills, traditionally counted as seven, around which the ancient city grew. The other hills are the Capitoline, the Quirinal, the Viminal, the Esquiline, the Caelian, and the Aventine.

Climate

Rome’s hot, dry summer days, with high temperatures often above 75 °F (24 °C), are frequently cooled in the afternoons by the ponentino, a west wind that rises from the Tyrrhenian Sea. The city receives roughly 30 inches (750 mm) of precipitation annually; spring and autumn are the rainiest seasons. Frosts and occasional light snowfalls punctuate the otherwise mild winters, when high temperatures average just above 50 °F (10 °C). The tramontana, a cold, dry wind from the north, frequents the city in the winter..
