3rd Edition of International Conference and Exhibition on

Polymer Chemistry

March 26 - 28, 2018
Vienna, Austria

Theme:

Sustainable Developments, Innovations and Recent Applications of Polymer Chemistry

EuroSciCon

Polymer Chemistry

2018

Invitation

Welcome to Vienna, the City of Arts and Science, and experience the Chemistry of polymers illuminated as never before. EuroSciCon is proud to host the "3rd Edition of International Conference and Exhibition on Polymer Chemistry" during March 26-28 2018 at Vienna, Austria. This year's theme is Sustainable Developments, Innovations and Recent Applications of Polymer Chemistry. Polymer chemistry 2018 will provide an unprecedented opportunity for polymer researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite polymer researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the polymer chemistry Conference is the perfect venue not only to dive into your particular polymer chemistry interests but also to expand the scope of your knowledge. 13 tracks are devoted to subjects such as the Recent Developments in Polymer Synthesis, Polymer Design and Reaction, Polymer Physics and Characterizations, Stereochemistry of Polymers, Biodegradable Polymers, Biopolymers & Biomaterials, Polymer Engineering, Polymers For Emerging Technologies, Polymerization Catalysis or Polymer-Modified Catalysts, Applications of Bio Polymers Bioplastics, Polymer Nanotechnology and Future Market of Polymers.The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant polymeric forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

March 26 - 28, 2018
Vienna, Austria

EuroSciCon

Polymer Chemistry

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 polymer chemists accessing the website, polymer chemistry 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Polymer Chemistry 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 26 - 28, 2018
Vienna, Austria

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Polymer Chemistry

2018

Who'd be attending?

3rd Edition of International Conference and Exhibition on polymer chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Eminent Scientists/ Research Professors in the field of polymer chemistry, Junior/ Senior research fellows, Students, Directors of polymer research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Polymer Industry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Recent Developments in Polymer Synthesis
- Polymer Design and Reactions
- Polymer Physics and Characterizations
- Stereochemistry of Polymers
- Biodegradable Polymers
- Biopolymers & Biomaterials
- Polymer Engineering
- Polymers for Emerging Technologies
- Polymerization Catalysis or Polymer- Modified Catalysts
- Applications of Biopolymers
- Bio plastics
- Polymer Nanotechnology
- Future Market of Polymer

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Polymer Sciences.
- Nano Research & Applications.
- Journal of Organic & Inorganic Chemistry.

March 26 - 28, 2018
Vienna, Austria

Welcome Address

Wolfgang Knoll
Austrian Institute of Technology, Austria

As a member of the Austrian polymer science community, it gives me immense pleasure to welcome you to the 3rd Edition of the International Conference and Exhibition on Polymer Chemistry, to be held March 26-28, 2018 in Vienna. We are very proud and honored that our city hosts one of the most prestigious meetings for polymer science with a focus on sustainable development, innovations and recent applications of polymer chemistry.

Polymer science in general has matured into a very attractive member of the (soft) materials science community. Polymer chemistry, in particular, has undergone a fundamental change from a discipline that delivered products with an average molecular mass and a polydispersity index, into a branch of precision chemistry, with unprecedented control of structure and function. Examples are the shape persistent poly(para-phenylene) dendrimers from Klaus Müllen's group, strictly monodisperse, with molecular masses of up to 106 Daltons, the self-assembly and self-organization of block copolymers into functional supramolecular systems with high structural perfection by the Bert Meijer group, or the elongated particles with an axially stacked lamellae structure reported by the Hawker group, to summarize just a few randomly picked examples.

This development is still at its rise; hence, it will be very exciting to hear more about the most recent achievements in this exciting area of chemistry as it will be presented at the Polymer Chemistry 2018 meeting next March in Vienna.

Let me finish with a personal suggestion: the latest ranking just been released from Mercer has put Vienna again at the top as number 1 of the most livable cities! But Vienna is not only a great city to live in – it is fantastic destination for a short touristic visit. So, attend the meeting but spend a few more days in our wonderful City of Vienna.

2018

About Destination Austria

Austria is located in the heart of Europe. Its dynamic cities feature glittering palaces, classical music concerts, a metropolitan feel, and also a young, vibrant population. Austria is one of the wealthiest countries in the world and has a very high standard of living. Its cities are clean and its people are friendly and helpful. Vienna, Austria's capital, lies in the country's east on the Danube River. Its artistic and intellectual legacy was shaped by residents including Mozart, Beethoven and Sigmund Freud. The city is also known for its Imperial palaces, including Schönbrunn, the Habsburgs' summer residence. In the Museums Quartier district, historic and contemporary buildings display works by Egon Schiele, Gustav Klimt and other artists. Vienna is the focal point of research in Austria: more than 40,000 researchers work in Vienna; more than EUR 2,8 billion are invested into research every year. Around 35 percent of all scientists in Austria are situated in Vienna. almost 40 percent of Austrian research expenditure can be attributed to the city. The research share of Vienna as of now surpasses 3.5 percent of GDP, thus meeting the Europe 2020 target of the European Union long before the 2020 deadline. 30 percent of all Austrian research institutions are situated in Vienna. Research activity is not constrained to colleges and expansive research organizations. Over the previous years, the quantity of organizations directing examination has ascended by more than 50 percent. Altogether, just about 1,500 research organizations are dynamic in Vienna,more than 50 percent of these are businesses.
