

Euro Con

4th of International Conference and Exhibition on

Chemistry

March 28 - 29, 2019
Rome, Italy

Theme:

Exploring recent advances in Polymer chemistry, related fields and applications

Polymer Chemistry 2019

Invitation

Welcome to Rome, the City of Arts and Science, and experience the Chemistry of polymers illuminated as never before. EuroSciCon is proud to host the "4th Edition of International Conference and Exhibition on Polymer Chemistry" during March 28-29 2019 at Rome, Italy. This year's theme is Exploring recent advances in Polymer chemistry, related fields and applications. Polymer chemistry 2019 will provide an unprecedented opportunity for polymer researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite polymer researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the polymer chemistry Conference is the perfect venue not only to dive into your particular polymer chemistry interests but also to expand the scope of your knowledge. 16 tracks are devoted to subjects such as the Recent Developments in Polymer Synthesis, Polymer Design and Reaction, Polymer Physics and Characterizations, Stereochemistry of Polymers, Biodegradable Polymers, Biopolymers & Biomaterials, Polymer Engineering, Polymers For Emerging Technologies, Polymerization Catalysis or Polymer-Modified Catalysts, Applications of Bio Polymers Bioplastics, Polymer Nanotechnology and Future Market of Polymers, Polymer Science, Polymers For Stem Cell, Polymers In All-Solid-State Batteries. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant polymeric forum in person is your active participation.

EuroSciCon

A Transformational Lea

- Curated to address the concerns of scientific world
- Be inspired by some of the renowned figures
- Stimulate new ways of and provoke action.
- Relish inspiring research oriented challenges.

March 28 - 29, 2019

Rome, Italy

Polymer Chemistry 2019

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

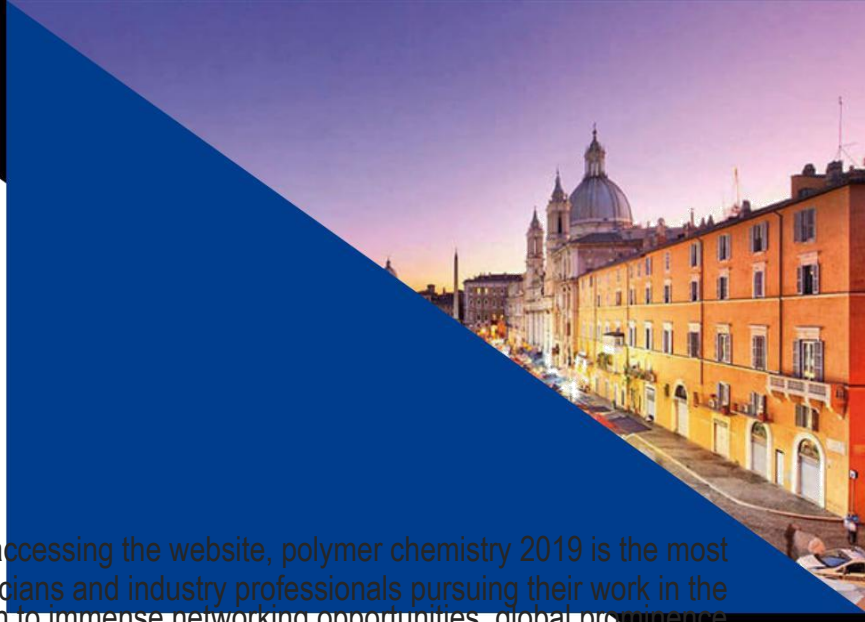

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 polymer chemists accessing the website, polymer chemistry 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Polymer Chemistry 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 28 - 29, 2019
Rome, Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

Polymer Chemistry 2019

EuroSciCon

Who'd be attending?

4th Edition of International Conference and Exhibition on polymer chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Eminent Scientists/ Research Professors in the field of polymer chemistry, Junior/ Senior research fellows, Students, Directors of polymer research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Polymer Industry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Recent Developments in Polymer Synthesis
- Polymer Design and Reactions
- Polymer Physics and Characterizations
- Stereochemistry of Polymers
- Biodegradable Polymers
- Biopolymers & Biomaterials
- Polymer Engineering
- Polymers for Emerging Technologies
- Polymerization Catalysis or Polymer- Modified Catalysts
- Applications of Biopolymers
- Bio plastics
- Polymer Nanotechnology
- Future Market of Polymer
- Polymer Science
- Polymers For Stem Cell
- Polymers In All-Solid-State Batteries

March 28 - 29, 2019

Rome, Italy

EuroSciCon

About Destination Rome

Rome is the capital of Italy and a special comune (named Comune di Roma Capitale). Rome also serves as the capital of the Lazio region. Rome is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of the Tiber. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states.

Rome's history spans 28 centuries. While Roman mythology dates the founding of Rome at around 753 BC, the sitehasbeen inhabited for much longer, making it one of the oldest continuously occupied sites in Europe. The city's early population originated from a mix of Latins, Etruscans, and Sabines .Eventually,the city successively became the capital of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded as the birthplace of Western civilisation and by some as the first ever metropolis. Rome is also called the "Caput Mundi" (Capital of the World).

Rome has the status of a global city.In 2016, Rome ranked as the 14th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy.Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year, and the city hosted the 1960 Summer Olympics. Rome is the seat of several specialized agencies of the United Nations, such as the Food and Agriculture Organization (FAO), the World Food Programme (WFP) and the International Fund for Agricultural Development (IFAD). The city hosts the headquarters of many international business companies, such as Eni, Enel, TIM and national and international banks such as Unicredit and BNL. Its business district, called EUR, is the base of many companies involved in the oil industry, the pharmaceutical industry and financial services. Rome is also an important fashion and design centre thanks to renowned international brands centered in the city. Rome's Cinecittà Studios have been the set of many Academy Award–winning movies.
