

EuroSciCon

5th Edition of International Conference and Exhibition on

Polymer Chemistry

March 23-24, 2020
London, UK

Theme:

Exploring recent advances in Polymer chemistry, related fields and applications

EuroSciCon

Polymer Chemistry

2020

Invitation

Welcome to London, the City of Arts and Science, and experience the Chemistry of polymers illuminated as never before. EuroSciCon is proud to host the "5th Edition of International Conference and Exhibition on Polymer Chemistry' during March 23-24, 2020 at London, UK. This year's theme is Exploring recent advances in Polymer chemistry, related fields and applications. Polymer chemistry 2020 will provide an unprecedented opportunity for polymer researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite polymer researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the polymer chemistry Conference is the perfect venue not only to dive into your particular polymer chemistry interests but also to expand the scope of your knowledge. 14 tracks are devoted to subjects such as the Recent Developments in Polymer Synthesis, Polymer Design and Reaction, Polymer Physics and Characterizations, Stereochemistry of Polymers, Biodegradable Polymers, Biopolymers & Biomaterials, Polymer Engineering, Polymers For Emerging Technologies, Polymerization Catalysis or Polymer-Modified Catalysts, Applications of Bio Polymers Bioplastics, Polymer Nanotechnology and Future Market of Polymers, Polymer Science. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant polymeric forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

March 23-24, 2020
London, UK

EuroSciCon

Polymer Chemistry

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 polymer chemists accessing the website, Polymer Chemistry 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Polymer Chemistry 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 23-24, 2020
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Polymer Chemistry

2020

Who'd be attending?

5th Edition of International Conference and Exhibition on Polymer Chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Eminent Scientists/ Research Professors in the field of polymer chemistry, Junior/ Senior research fellows, Students, Directors of polymer research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Polymer Industry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Recent Developments in Polymer Synthesis
- Polymer Design and Reactions
- Polymer Physics and Characterizations
- Stereochemistry of Polymers
- Biodegradable Polymers
- Biopolymers & Biomaterials
- Polymer Engineering
- Polymers for Emerging Technologies
- Polymerization Catalysis or Polymer- Modified Catalysts
- Applications of Biopolymers
- Bio plastics
- Polymer Nanotechnology
- Future Market of Polymer
- Polymer Science

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Polymer Sciences.
- Nano Research & Applications.
- Archives in Chemical Research

About Destination London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent and Hertfordshire, which today largely makes up Greater London,a region governed by the Mayor of London and the London Assembly.

London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport systemmeasured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.

London has a diverse range of people and cultures, and more than 300 languages are spoken in the region. Its estimated mid-2016 municipal population (corresponding to Greater London) was 8,787,892, the largest of any city in the European Union and accounting for 13.4% of the UK population. London's urban area is the second most populous in the EU, after Paris, with 9,787,426 inhabitants at the 2011 census. The city's metropolitan area is the most populous in the EU with 14,040,163 inhabitants in 2016, while the Greater London Authority states the population of the city-region(covering a large part of the south east) as 22.7 million.London was the world's most populous city from around 1831 to 1925.

London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwichdefines the Prime Meridian, 0° longitude, and GMT). Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
