

EuroSciCon

4th International Conference on

Power and Energy Engineering

June 17-18, 2019

Tokyo, Japan

Theme:

Lighting the Future with the Advancements in Power and Energy Technologies

EuroSciCon

Power Engineering

2019

Invitation

Welcome to Tokyo, world's most populous metropolitan area and is the center of Japanese culture, and experience the science of Power Engineering illuminated as never before. EuroSciCon is proud to host the 4th International Conference on Power and Energy Engineering, June 17-18, 2019 in Tokyo, Japan. This year's theme is "Lighting the Future with the Advancements in Power and Energy Technologies". Power Engineering 2019 will provide an unprecedented opportunity for speakers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Power engineers and researchers, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Power Engineering Conference is the perfect venue not only to dive into your particular Power and Energy interests but also to expand the scope of your knowledge. 18 tracks are devoted to subjects such as Power Engineering, Power System, Power Transmission and Distribution, Power Electronics, Power and Energy Market, Battery Technologies, Fuel Cell and Combustion Technologies, Smart Grid Technologies, Alternative Energy Technologies, Energy Storage, Sustainable Energy Technologies, Solar energy, Wind Energy, Bio Energy, Hydropower Technology, Green Energy, Photovoltaic System, Energy Materials.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Power-Energy forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

June 17-18, 2019

EuroSciCon

Power Engineering

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Power and Energy related academicians, industrialists accessing the website, Power Engineering 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Power Engineering 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

June 17-18, 2019
Tokyo, Japan

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Power Engineering

2019

Who'd be attending?

International Conference on Power Engineering plays host for the Multinational organizations, entrepreneurs across the globe. Prominently Power and Energy related academicians, industrialists and researchers and others who stay plunged in learning and practice of the Power and Energy related fields.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Power Engineering
- Power System
- Power Transmission and Distribution
- Power Electronics
- Power and Energy Market
- Battery Technologies
- Fuel Cell and Combustion
- Technologies
- Smart Grid Technologies
- Alternative Energy Technologies
- Energy Storage
- Sustainable Energy Technologies
- Solar Power
- Wind Energy
- Energy Economics and Policy
- Bio Energy
- Hydropower Technology
- Green Energy
- Photovoltaic System
- Energy Materials
- Electromagnetism
- Clean Energy
- Nuclear Energy

Power Engineering

2019

About Destination Tokyo

Tokyo is Japan's capital and the world's most populous metropolis. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city centre. The Izu and Ogasawara Islands are also part of Tokyo.

Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan's political center in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world's most populous cities. With the Meiji Restoration of 1868, the emperor and capital moved from Kyoto to Edo, which was renamed Tokyo ("Eastern Capital").

Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture and dining to its visitors. The city's history can be appreciated in districts such as Asakusa and in many excellent museums, historic temples and gardens. Contrary to common perception, Tokyo also offers a number of attractive green spaces in the city center and within relatively short train rides at its outskirts.
