

EuroSciCon

6th European Conference on

Quantum and Plasma Physics

February 21-22, 2020
Amsterdam, Netherlands

Theme:

Advancements in Quantum and Plasma Physics

EuroSciCon

Quantum and Plasma Physics

2020

Invitation

Quantum and Plasma Physics 2020 is glad and proud to welcome to attend the European Conference during February 21-22, 2020 Amsterdam, Netherlands with a theme “Advancements in Quantum and Plasma Physics“. Amsterdam is the Netherlands capital, known for its artistic heritage, elaborate canal system and narrow houses with gabled facades, legacies of the city’s 17th-century Golden Age. EuroSciCon through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. Quantum and Plasma Physics 2020 aims with total 36 tracks to discover advances in applied physics, management and education in relation to the field as well as a breadth of other topics.

Quantum and Plasma Physics 2020 conference brings together individuals who have an interest in different fields like applied physics, Physics, Plasma Cosmology, Plasma Chemistry, Mathematics, astronomy. It also gives opportunities to the investor societies to showcase their knowledge and have face to face meetings with scientists increasing their business opportunities and also gives opportunity to know about their market competitors.The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. We assure our attendees will return with a confidence in Isharing and gaining knowledge from the experts to improve their scientific practice and equipped with certified procedures to work with.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

February 21-22, 2020
Amsterdam, Netherlands

EuroSciCon

Quantum and Plasma Physics

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ professionals and Educators accessing the website, Quantum and Plasma Physics 2020 is the most lucrative platform for Engineers, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Quantum and Plasma Physics 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

- *Congregate with most senior executives*
- *Nurture connexions*
- *Agenda format which incorporates ample Q&A time*
- *Partake in our revamped exhibitor expo sessions*
- *Meet and listen to the relevant clients*
- *Unprecedented growth creating an unparalleled market place*

February 21-22, 2020
Amsterdam, Netherlands

How's EuroSciCon different?

- *Exercises your creative instincts with the live knowledge experience*
- *It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries*
- *Over 25 Million+ Visitors and 20000+ Unique Visitors per conference*
- *World's leading industries and companies attend*
- *Career guidance for early career researchers and students*
- *Provides insights you need to take your research to the next level*
- *A huge conclave of high tech and science priests*

EuroSciCon

Quantum and Plasma Physics

2020

Who'd be attending?

Quantum and Plasma Physics 2020 Conference plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Plasma Physicists, Industrial Expert, Lecturers and Students from Academia in the research of Plasma Physics, Plasma Cosmology Experts ,Plasma Communication Researchers, Mathematicians related to Plasma Physics, Quantum Theory Scientists and Quantum Mechanism Researchers.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Quantum Mechanics
- Quantum Technology
- Schrodinger Equation
- Quantum Chemistry
- Quantum Cryptography
- Quantum Mechanism In Plasma
- Plasma Physics
- Higher Energy Physics
- Molecular Physics
- Condensed Matter Physics Semi Conductors
- Applied Physics-Acoustics, Noise And Vibration
- Applied Physics- Mechanics, Rheology & Tribology
- Condensed Matter Physics Nanomaterials, Clusters, And Fullerenes
- Plasma And Gas Discharge Physics
- Electromagnetic Waves
- Plasma Cosmology
- Mineralogy
- Hydrodynamics And Hydromagnetic Stability In Plasma
- Plasma Communication
- Plasma Antennas
- Plasma Medicine
- Plasma Surface Activation
- Fluid Dynamics
- Quantum Chromodynamics
- Black Hole Thermodynamics
- Plasma Diagnostics
- Biophotonics
- Internet Of Things (IOT)
- Quantum Theory
- Quantum Optics
- Quantum Information And Quantum Computing
- String Theory And Quantum Gravity
- Atomic Physics
- Metrology And Instrumentation
- Geophysics
- Multiscale Materials Modeling

EuroSciCon

Quantum and Plasma Physics

2020

About Destination Amsterdam

Amsterdam is the titular (because it is not the seat of government, which is The Hague) capital and most populous city of the Netherlands, with a population of 866,737 within the city proper, 1,380,872 in the urban area, and 2,410,960 in the metropolitan area. Amsterdam is in the province of North Holland. Amsterdam is colloquially referred to as the “Venice of the North” due to its large number of canals which are a UNESCO World Heritage Site.

Amsterdam’s name derives from Amstelredamme, indicative of the city’s origin around a dam in the river Amstel. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world in the Dutch Golden Age of the 17th century and became the leading centre for finance and trade. In the 19th and 20th centuries, the city expanded, and many new neighbourhoods and suburbs were planned and built. The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. Sloten, annexed in 1921 by the municipality of Amsterdam, is the oldest part of the city, dating to the 9th century.
