Recycling Expo-2018

WORLD CONGRESS AND EXPO ON

RECYCLING

August 29-30, 2018 | Berlin, Germany

www.meetingsint.com/conferences/recycling

Invitation

Meetings International proudly announces the ***World Congress And Expo On Recyclinag scheduled during August 29-30, 2018 in Berlin, Germany***. The conference emphasizes the theme "***Sorting Out Waste: Valuing it as a resource***".

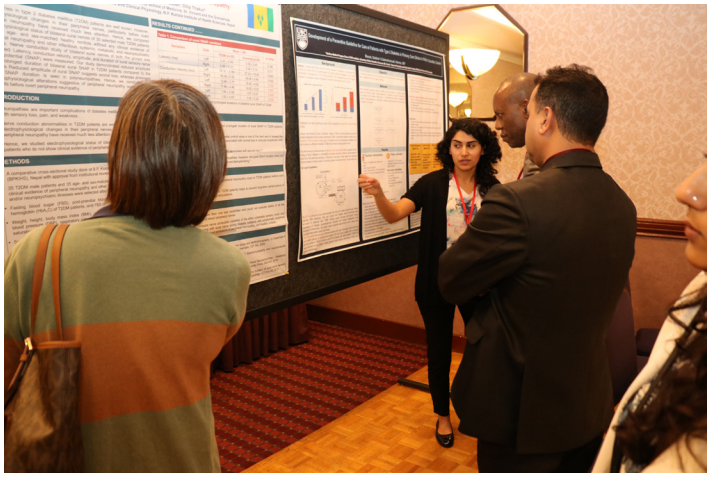

Meetings International provides an international dais for scientists and recycling professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of recycling has come into spotlight in the recent years. Thus, priorities are given for the recycling centers to produce waste disposal that can save material and help lower greenhouse gas emissions (compared to plastic production, for example). Recycling can prevent the waste of potentially useful materials and reduce the consumption of fresh raw materials, thereby reducing: energy usage, air pollution (from incineration), and water pollution (from landfilling)..

Sincerely,
Operating Committee
Meetings International

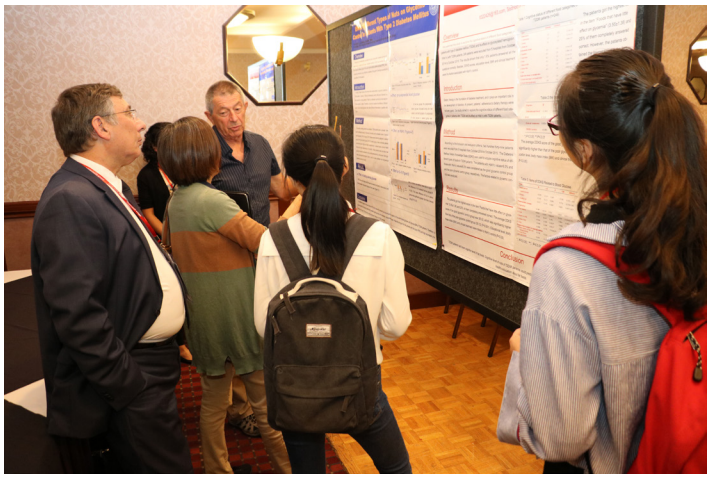

Recycling Expo 2018

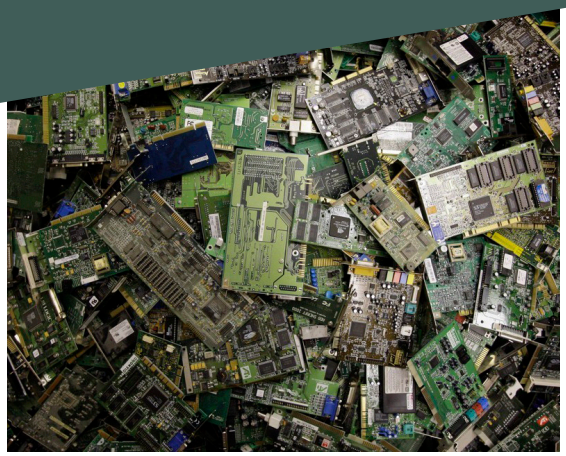

Conference Highlights

- Recycling
- Industrial waste recycling
- Chemical Waste Recovery
- Food & Agricultural Waste recycling
- Waste Management Techniques
- E-Waste Recycling and Management
- Thermal Waste Recovery
- Renewable energy
- Waste Management Techniques
- Biological Waste Management
- Construction Waste Management
- Processing of Recycled Materials
- Recycling of Hospital Wastes
- Life Cycle Analysis of Recycled Products
- Recycling Market
- Entrepreneurs Investment Meet: Recycling Expo-2018

Meetings Int. offers

An unique platform for top level research and innovation

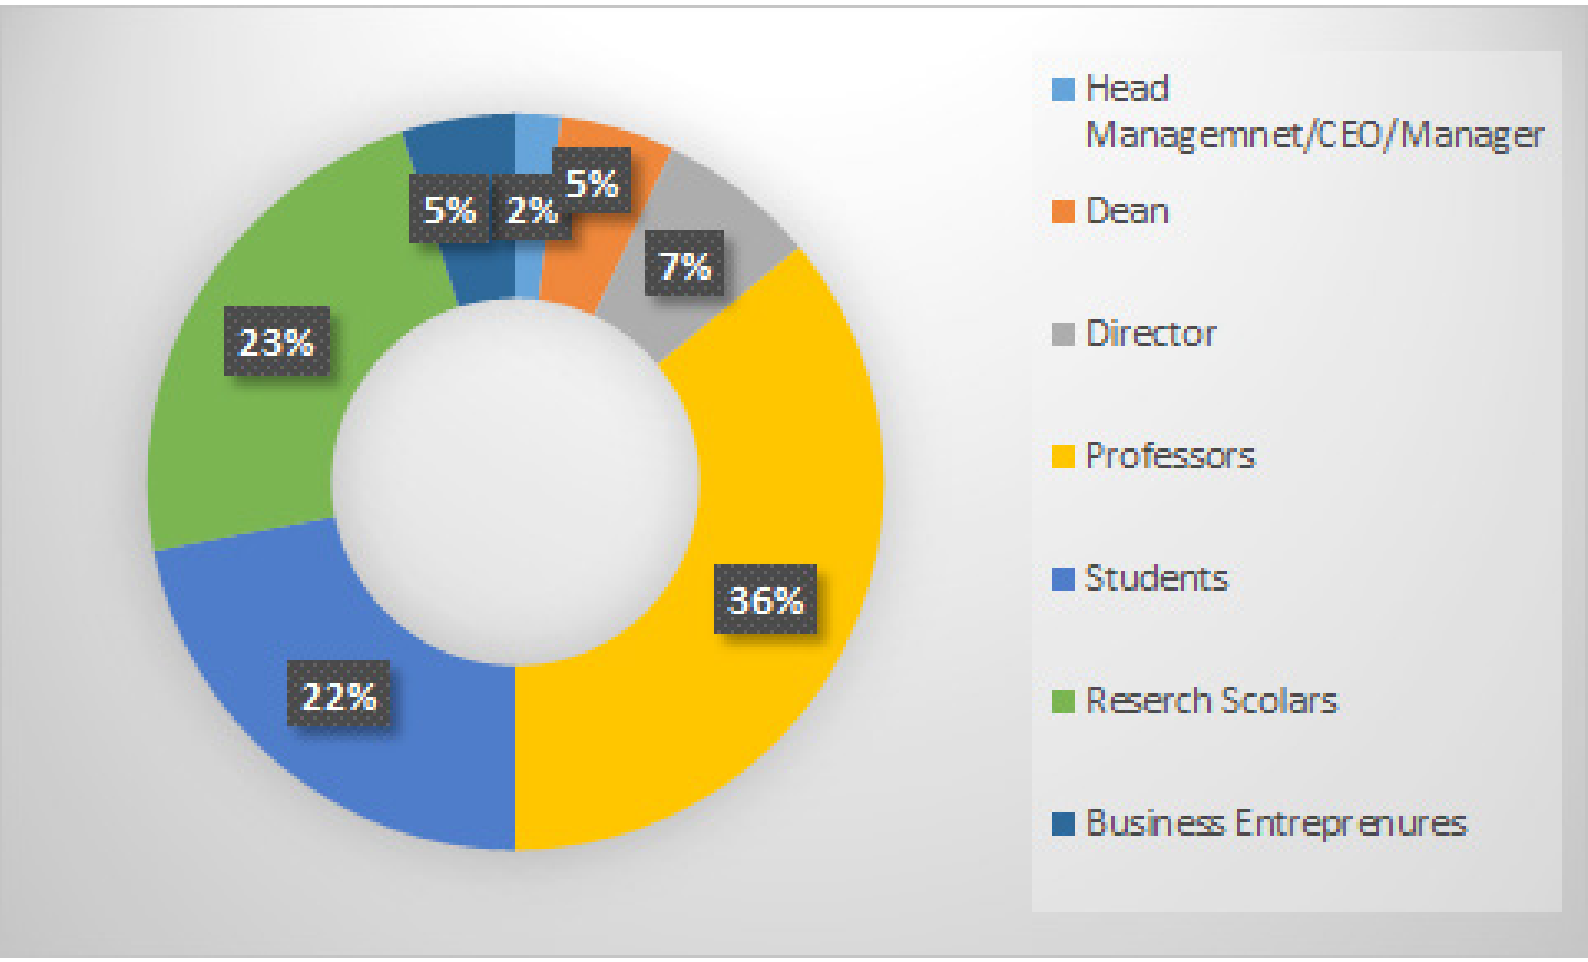

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Berlin**

Berlin is the capital and the largest city of Germany as well as one of its 16 constituent states. With a population of approximately 3.7 million, Berlin is the second most populous city proper in the European Union and the seventh most populous urban area in the European Union. Located in northeastern Germany on the banks of the rivers Spree and Havel, it is the centre of the Berlin-Brandenburg Metropolitan Region, which has roughly 6 million residents from more than 180 nations. Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate. Around one-third of the city's area is composed of forests, parks, gardens, rivers, canals and lakes. Berlin is a world city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. The metropolis is a popular tourist destination. Significant industries also include IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics.
