

EuroSciCon

3rd Edition of Global Summit on

Renewable Energy & Emerging Technologies

September 09-10, 2019

Baltimore, USA

Theme:

Advancing Energy Technologies to Meet Renewable Energy Goals in Future

EuroSciCon

Renewable Energy

2019

Invitation

Welcome to Baltimore, world's most populous metropolitan area and is the center of USA culture, and experience the science of Renewable Energy Education illuminated as never before. EuroSciCon is proud to host the 3rd Edition of Global Summit on Renewable Energy & Emerging Technologies, September 09-10, 2019 in Baltimore, USA. This year's theme is "Advancing Energy Technologies to Meet Renewable Energy Goals in Future". Renewable Energy Education 2019 will provide an unprecedented opportunity for Renewable Energy Professors, Scientists, Researchers, Students and Business persons of all stripes and colours to share their research with colleagues and discuss and debate the latest advances in the field. We invite Environmental practitioners and researchers, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Renewable Energy 2019 is the perfect venue not only to dive into your particular Gastroenterology interests but also to expand the scope of your knowledge. 25 tracks are devoted to subjects such as Recent advances in Renewable Energy, Renewable Energy, Climate Change, Sources Of Energy, Biofuels, Hydropower, Solar Energy, Biomass, Tidal Power, Wind Power, Wave Energy,Geothermal Energy, Marine Energy, Energy Storage, Smart Grids, Sustainable Energy, Green Energy, Waste-To-Energy. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Renewable Energy forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 09-10, 2019

Baltimore, USA

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Environmentalist and Scientists accessing the website, Renewable Energy 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Renewable Energy 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

September 09-10, 2019
Baltimore, USA

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

International Conference on Renewable Energy plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Ecologist, Naturalist, Environment Consultants, Professionals, Distinguished Professors, Scientists , Entrepreneurs and PhD Students and others who stay plunged in learning and practice of the science of Gastroenterology and its related Treatments.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Renewable Energy
- Climate Change
- Sources Of Energy
- Bio-fuels
- Hydropower
- Solar Energy
- Biomass
- Tidal Power
- Wind Power
- Wave Energy
- Geothermal Energy
- Marine Energy
- Energy Storage
- Smart Grids
- Sustainable Energy
- Green Energy
- Waste-To-Energy

About Destination Baltimore

Baltimore is the largest city in the U.S.A state of Maryland, and the 30th-most populous city in the United States. Baltimore was established by the Constitution of Maryland and is an independent city that is not part of any county. With a population of 611,648 in 2017, Baltimore is the largest independent city in the United States. As of 2017, the population of the Baltimore metropolitan area was estimated to be just under 2.808 million, making it the 20th largest metropolitan area in the country. Baltimore is located about 40 miles (60 km) northeast of Washington, D.C., making it a principal city in the Washington-Baltimore combined statistical area (CSA), the fourth-largest CSA in the nation, with a calculated 2017 population of 9,764,315. Founded in 1729, Baltimore is the second-largest seaport in the Mid-Atlantic. The city's Inner Harbor was once the second leading port of entry for immigrants to the United States, when most were coming from Europe. It was also a major manufacturing center. After a decline in major manufacturing, heavy industry, and restructuring of the rail industry, Baltimore has shifted to a service-oriented economy. Johns Hopkins Hospital (founded 1889) and Johns Hopkins University (founded 1876) are the city's top two employers. With hundreds of identified districts, Baltimore has been dubbed a "city of neighborhoods". Famous residents have included writers Edgar Allan Poe, Edith Hamilton, Frederick Douglass, and H. L. Mencken; jazz musician James "Eubie" Blake; singer Billie Holiday; actor and filmmaker John Waters; and baseball player Babe Ruth. During the War of 1812, Francis Scott Key wrote "The Star-Spangled Banner" in Baltimore after the bombardment of Fort McHenry. His poem was set to music and popularized as a song; in 1931 it was designated as the American national anthem.
