Dear Attendees,

The 4th International Conference on Rheumatology brings a chance to share and discuss all the researches in Rheumatology which is going to be scheduled during November 13-14, 2024 in Dubai, UAE. The main motto of Rheumatology 2024 is to bring a new platform to share new ideas and all the innovations in the field of Rheumatology with the theme of the conference “Revitalize in Rheumatology care - restore your Future health”. It mainly targets all the scientists, young researchers and industrialists across the globe to interchange their ideas and share their experiences, discuss the enhancements in technology, practical challenges, and advanced instrumentation and analysis results. Rheumatology 2024 is a specially designed cluster conference which consists of keynote presentations, Oral talks, Poster presentations, Workshops, Panel Discussions and Exhibitions, Young Researcher Forums (YRF), Best Poster Award, Industry academic interactive sessions, and Industry Presentations etc

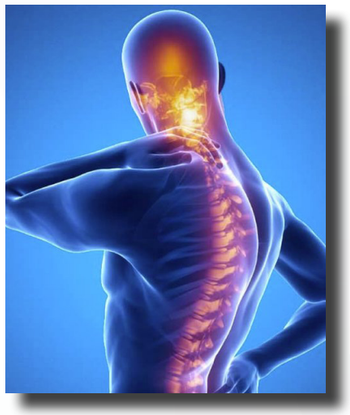

Sincerely,
Operating Committee
Rheumatology 2024

13:30 - 15:30	Sessions
15:30 - 15:45	Coffee/Tea Break
15:45 - 17:30	Sessions

VENUE:

Dubai, UAE

Dubai Gulf Arabic pronunciation: is the most populated city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai, the most populated of the 7 monarchies which together form the United Arab Emirates. Established in the 18th century as a small fishing village, the city grew rapidly in the early 21st century with a focus on tourism and luxury, having the second most five-star hotels in the world, and the tallest building in the world, the Burj Khalifa, which is over a half a mile tall.

In the eastern Arabian Peninsula on the coast of the Persian Gulf, it is also a major global transport hub for passengers and cargo. Oil revenue helped accelerate the development of the city, which was already a major mercantile hub. A centre for regional and international trade since the early 20th century, Dubai's economy relies on revenues from trade, tourism, aviation, real estate, and financial services. Oil production contributed less than 1 per cent of the emirate's GDP in 2018.The city has a population of around 3.4 million (as of 2021).
