INVITATION

ABOUT CONFERENCE

The 3rd International Conference on Robotics and Automation, scheduled for April 27–28, 2026, in Dubai, UAE, is a premier international forum dedicated to advancing innovation, research, and industrial applications in robotics, automation, and intelligent systems. This conference brings together leading researchers, engineers, industry professionals, academicians, and policymakers from around the world to exchange knowledge, share cutting-edge research, and explore future trends shaping the robotics and automation landscape.

The conference aims to bridge the gap between academic research and real-world industrial implementation by promoting interdisciplinary collaboration and knowledge transfer. It will highlight recent breakthroughs in areas such as autonomous systems, artificial intelligence in robotics, industrial automation, human–robot interaction, robotics in healthcare and manufacturing, smart factories, and emerging robotic technologies.

Hosted in Dubai, a global hub for innovation, smart technologies, and Industry 4.0 initiatives, the conference offers an inspiring environment for dialogue and discovery. The 3rd International Conference on Robotics and Automation is committed to driving technological excellence and supporting the global advancement of robotics and automation for a smarter, more connected future.

YOUNG RESEARCH FORUM:

We are pleased to announce the Young Scientist Awards at the 3rd International Conference on Robotics and Automation, scheduled for April 27–28, 2026, in Dubai, UAE. Robotics 2026 is centered on the theme “Human–Robot Collaboration: Enhancing Efficiency, Safety, and Innovation.” This conference aims to recognize and honor young researchers, innovators, and early-career professionals who have made meaningful contributions to the advancement of robotics, automation, and intelligent systems. The Young Scientist Award provides an excellent professional development opportunity, enabling emerging researchers to present their work, engage with leading experts, exchange ideas, and build global collaborations within the robotics and automation community.

CONFERENCE HIGHLIGHTS

- Keynote lectures by renowned international speakers
- Scientific talks by active investigators and experts
- Speaker forums on emerging robotics and automation trends
- Poster sessions highlighting latest innovations
- Panel discussions and interactive expert sessions
- Open innovation challenges and collaborative forums
- Young Researcher Forum and post-doctoral career sessions
- Dedicated B2B meetings for industry–academia collaboration
- Global networking with participants from 50+ countries
- Premier platform for global business and partnership opportunities

TARGET AUDIENCE

- Robotics and Automation Researchers & Academicians
- AI, Machine Learning, and Data Science Professionals
- Robotics Engineers and System Designers
- Industrial Automation and Manufacturing Experts
- Healthcare, Medical, and Rehabilitation Robotics Specialists
- Human–Robot Interaction and Social Robotics Researchers
- Legal, Policy, and Regulatory Professionals in Robotics and AI
- Industry Leaders, Startups, and Technology Innovators
- Graduate Students, PhD Scholars, and Young Researchers
- Government Officials, Standards Bodies, and Technology Policymakers

SESSION HIGHLIGHTS

- AI-Driven Robotics & Intelligent Automation
- Emerging Technologies in Robotics & Autonomous Systems
- Robot Sensors, Vision & Perception Systems
- Human–Robot Interaction, Humanoid & Social Robotics
- Soft Robotics & Bio-Inspired Engineering
- Swarm Robotics & Collective Intelligence
- Robotics Standards, Safety & Global Regulations
- Robotics in Data Analytics & Intelligent Decision-Making
- Industrial Automation, Smart Manufacturing & Industry 5.0
- Robotics in Warehousing, Logistics & Supply Chain Automation
- Robotic Process Automation (RPA) & Business Transformation
- Robotic Surgery, Medical & Rehabilitation Robotics
- Robotic Exoskeletons & Assistive Technologies
- Robotics for Disaster Response, Defense & Extreme Environments

Past Event Report

Meetings International Conferences successfully hosted the 2nd International Conference on Robotics and Automation in Dubai, UAE, on December 04–05, 2023. The conference was organized with a strong focus on advancing innovation and research in robotics, automation, and intelligent systems, and it marked a significant milestone in fostering global scientific collaboration.

The event featured eminent keynote speakers and distinguished experts from leading universities, research institutions, and industries who addressed the gathering with insightful presentations on emerging technologies and real-world applications. The enthusiastic participation and dedicated support of the organizing committee members played a crucial role in the overall success of the conference.

We sincerely thank all the speakers, delegates, and participants for their valuable contributions, active engagement, and continued support, which made the conference a rewarding and memorable scientific experience.

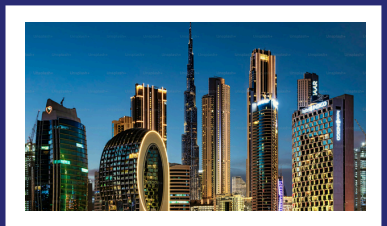

About Venue:

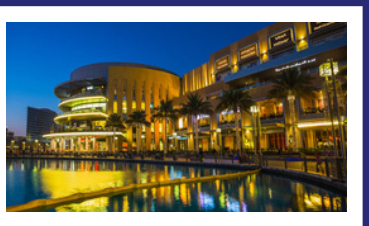

The 3rd International Conference on Robotics and Automation, scheduled for April 27–28, 2026, will be held in Dubai, United Arab Emirates, one of the world's most dynamic hubs for technology, innovation, and smart infrastructure. Renowned for its futuristic vision and rapid adoption of advanced technologies, Dubai provides an ideal setting for a global conference focused on robotics and automation.

Dubai is a leader in AI integration, smart cities, Industry 4.0 initiatives, and automation-driven transformation, supported by strong government policies and international investment. The city offers world-class conference facilities, advanced digital infrastructure, and seamless connectivity, making it easily accessible for international delegates.
Beyond its professional appeal, Dubai offers a rich cultural experience, blending modern architecture with traditional heritage. Delegates can explore iconic landmarks, innovation districts, and vibrant business centres while enjoying exceptional hospitality and global cuisine.

Hosting the conference in Dubai fosters meaningful collaboration between academia, industry, and policymakers, providing participants with a unique opportunity to engage in knowledge exchange, networking, and innovation in a city shaping the future of technology.

Registration Fee

REGISTRATION TYPES	EARLY BIRD	MID TERM	FINAL CALL
ACADEMIC SPEAKER	$596	$705	$814
BUSINESS SPEAKER	$676	$805	$891
POSTER REGISTRATION	$699	$807	$915
DELEGATE REGISTRATION	$646	$753	$861
STUDENT REGISTRATION	$349	$399	$449
WEBINAR / VIRTUAL CONFERENCE REGISTRATION	$299	$399	$499
E-POSTER	$210	$210	$210
ACCOMPANYING PERSON	$249	$249	$249

Important Dates:

EARLY BIRD REGISTRATION ENDS

February 27, 2026
