Meetings International

Tentative Program

4th International Webinar on Sensor

January 31, 2022

https://www.meetingsint.com/webinars/sensor

January 31, 2022	
Theme : Invention and Innovation of New Concepts in the Field of Sensors	
| UK - 08:30 | India - 14:00 | Italy –09:30 |	
Sessions : Molecular Biology| Molecular Microbiology | Next Generation DNA Sequencing | Clinical and Nutritional Biochemistry | Enzymology & Biochemistry | Cellular and Molecular Biology	
Oral Presentation	
08:30-09:00	Title: Anomaly Detection in Photovoltaic Production Factories via Monte Carlo Pre Processed Principal Component Analysis
	Nour Alhuda Sulieman, Messina University, Italy
09:00-09:30	Title: Electrochemical Application of Carbon-paste Electrode Modified with Substituted Cobalt(II)phthalocyanine for Voltammetric Determination of Dopamine: A Voltammetric Study
	Malathesh Pari, Sahyadri Science College, India
The End
