

EuroSciCon

9th Edition of International Conference and Exhibition on

Separation Techniques

MAY 25-26, 2020
Dublin, Ireland

Theme:
An Insight into the Research Applications of Various Separation Techniques

EuroSciCon

Separation Techniques

2020

Invitation

EuroSciCon is glad to invite all the professionals from the Field of Chemistry & Chemical Engineering to attend the International Conference and Exhibition on Separation Techniques which is going to be held in the month of May 25-26, 2020 Dublin, Ireland with theme “An Insight into the Research Applications of Various Separation Techniques”

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

MAY 25-26, 2020
Dublin, Ireland

EuroSciCon

Separation Techniques

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the Globe. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Chemists and Educators accessing the website. Separation Techniques 2020 conferences are the most lucrative platform for Chemistry Professors, Oil and Gas Societies, Bio-Analytical Engineering Faculty , Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Separation Techniques 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

MAY 25-26, 2020
Dublin, Ireland

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Separation Techniques

2020

Who'd be attending?

Chemistry Professors, Oil and Gas Societies, Chemistry Engineering Faculty, Chemical Engineer Graduates & Students, Oil and Gas Research Scholars, Oil and Gas Scientists, Bio Analysts, Chemical Engineering Professors, Chemicals Marketers. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication, Petroleum and oil-gas Industries it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Analytical Chemistry
- Adsorption&Absorption
- BioAnalytics
- Cell Separation Techniques
- Chemometrics
- Catalysis
- Chromatography
- Crystallization
- Distillation&Demulsification
- Electrochemistry
- Electrophoresis
- Food Chemistry
- Forensic Science
- Fractionation&Magnetism
- Geology&Mineralogy
- Hyphenated Techniques
- Membrane Techniques
- Nanotechnology
- Organic&Inorganic Chemistry
- Oil-Water Separation Techniques
- Pharmaceutical Techniques
- Spectroscopy Methods
- Separation Techniques Based On Rate Phenomena
- Voltammetry&Polagraphy
- Waste Water Treatment

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Archives in Chemical Research
- Chemical Informatics
- Structural Chemistry & Crystallography Communication

MAY 25-26, 2020
Dublin, Ireland

EuroSciCon

Separation Techniques

2020

About Destination Dublin

Dublin, capital of the Republic of Ireland, is on Ireland's east coast at the mouth of the River Liffey. Its historic buildings include Dublin Castle, dating to the 13th century, and imposing St Patrick's Cathedral, founded in 1191. City parks include landscaped St Stephen's Green and huge Phoenix Park, containing Dublin Zoo. The National Museum of Ireland explores Irish heritage and culture. Dublin celebrated its 'official' millennium in 1988, meaning the Irish government recognised 988 as the year in which the city was settled and that this first settlement would later become the city of Dublin. Since the beginning of Norman rule in the 12th century, the city has functioned as the capital in varying geopolitical entities: Lordship of Ireland (1171–1541), Kingdom of Ireland (1541–1800), as part of the United Kingdom of Great Britain and Ireland (1801–1922), and the Irish Republic (1919–1922). Following the partition of Ireland in 1922, it became the capital of the Irish Free State (1922–1937) and now is the capital of Ireland.
