13TH INTERNATIONAL CONFERENCE ON

SMART MATERIALS & POLYMER TECHNOLOGY

FEBRUARY 19-20, 2020 | PARIS, FRANCE

Smart Materials 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 13th International Conference on Smart Materials and Polymer Technology scheduled during February 19-20, 2020 in Paris, France. The conference emphasizes the theme "Emerging progress in smart content applications".

This conference provides a complete seminar for scientists, engineers, companies, and students in the field of Materials Engineering, Nanotechnology, Textile and Polymer Engineering,Ceramics,Spintronics,Nanotechnology,Aerospace,andAutomobileEngineering, Dental Science, Civil and Architecture Engineering does the continuous technology, physics, chemicals, and theories to meet and share their knowledge Related areas.

Sincerely,

Operating Committee

Smart Materials 2020

Conference Highlights

- Emerging Smart Materials
- Materials Science
- Carbon nanotubes, Graphene and Composites
- Material Synthesis and Characterization
- Surface Science and Engineering
- Optical, Magnetic and Electronic Materials
- Nanomaterials and Nanotechnology
- Piezoelectric Materials and 3-D Printing
- Biomaterials and Tissue Engineering
- Materials in Dentistry and Healthcare
- Market Demand and Future
- Architecture Materials Technology
- Wearable Technology
- Ceramics and Textiles Industries
- Polymeric Materials
- Composite polymers and Biopolymers
- Polymer Science and Engineering
- Micro encapsulated fabrics
- Sustainable Energy and Development

To identify the future directions of research

Peer review and high quality publication

Quality research

Head Management/CEO/Manager

Dean

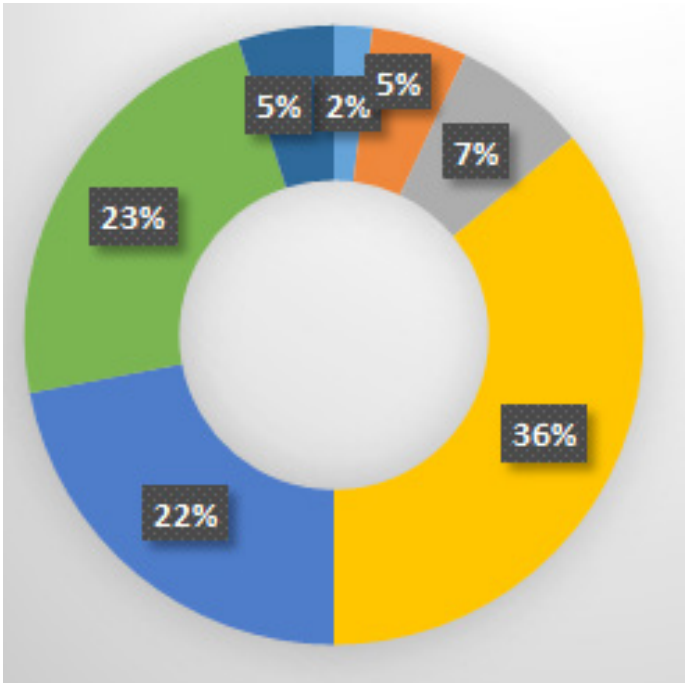

Director

Professor

Students

Research Scolars

Business Enterprenures

Explore Paris

Paris is the capital of France and is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques Paris has been one of Europe's major centres of finance, commerce, fashion, science, and the arts. Paris is often referred to as The City of Light, both because of its leading role during the Age of Enlightenment, and more literally because Paris was one of the first large European cities to use gas street lighting on a grand scale on its boulevards and monuments.
