

EuroSciCon

8th International conference on

Smart Materials and Structures

August 01-02
Dublin, Ireland

Theme:

Exploring the Recent Discoveries in the field of Material Science and Engineering

EuroSciCon

Smart Materials Congress

2019

Invitation

Welcome to Dublin, the capital and largest city of Ireland and was briefly the second largest city in the British Empire. Dublin is the primary centre of education in Ireland, and is home to top universities. Dublin has a significant literary history, and produced many literary figures. EuroSciCon is proud to host the 8th International Conference on Smart Materials and Structures. This Year's theme is "Exploring the Recent Discoveries in the field of Material Science and Engineering".

Smart Materials Congress 2019 will provide an unprecedented opportunity for Material Science, Smart Materials, Structures, Mechanical, Computers, Electrical & Electronics, Physical Sciences, Nanoscience &Nanomaterials, Biomaterials, Materials Chemistry, Architecture & Civil, Medical Sciences & related fields & associations to share their research with colleagues, and discuss and debate the latest advances in the eminent fields. We invite Chairperson, Director/ Dean, Assistant & Associate Professors, Professors, Lecturers, Researchers, Scientists,Engineers,PhD students and postgraduates in related disciplines to come together and spread your Researches.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Smart Material conference is the perfect venue not only to dive Smart structure interests but also to expand the scope of your knowledge on Structural Designing 20 tracks are devoted to subjects are Smart Materials and Technology, Smart Structures, Smart Control Systems in Industrial Applications, Advances in Material Science and Engineering, Architecture and Civil Engineering, Nanomaterials, Biomaterials, Bioactive Smart Materials, Physics and Chemistry of Materials, Optical & Electronic Smart Materials, Mechanics & Rheology of Materials, Artificial Intelligence, Sensors,Transducers & Actuators, Integration of Smart power & Renewable Energy Systems, Emerging Materials, Advanced Manufacturing Technologies, Mathematical Models & Methods for Smart Structures, Materials Challenges, Future of Materials,Market Demand &Value.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and Nanotechnology forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

August 01-02
Dublin, Ireland

EuroSciCon

Smart Materials Congress

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Material Scientists and Nanotechnologists accessing the Website, Smart Materials and Structures 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Smart Materials Congress 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

August 01-02
Dublin, Ireland

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Smart Materials Congress

2019

Who'd be attending?

8th International Conference on Smart Materials and Structures plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Material Science, Smart Materials, Structures, Mechanical, Computers, Electrical & Electronics, Physical Sciences, Nanoscience &Nanomaterials, Biomaterials, Materials Chemistry, Architecture & Civil, Medical Sciences & related fields & associations.

Scientific Sessions:

- Smart Materials and Technology
- Smart Structures
- Smart Control Systems
- Advances in Material Science and Engineering
- Composite Material systems & Structures
- Nanomaterials & Nanotechnology
- Biomaterials & Bioactive Materials
- Materials Physics
- Materials Chemistry
- Optical & Electronic Smart Materials
- Mechanics & Rheology of Materials
- Artificial Intelligence
- Sensors,Transducers & Actuators
- Smart power & Renewable Energy Systems
- Emerging Materials
- Advanced Manufacturing Technologies
- Mathematical Models & Methods for Smart Structures
- Materials Challenges
- Future of Materials
- Mechatronics,Spintronics
- 3D Printing,Metal Organic Frameworks
- Carbon,Graphite,Graphene,Ceramics,aerogels
- Computational Optics & Photonics
- NEMS,MEMS & Liquid
- Metal Devices
- Shape Memory Materials
- Polymers & Piezoelectric Materials
- Smart Camera,Smart Antenna Systems
- Smart Concrete,Smart Bricks & Fluids
- Smart Home Materials & Security Systems
- Semiconductors & Superconductors
- Smart Resilient & Transition cities,Smart Buildings
- Smart Composite Coatings and membranes
- Smart biosensors & devices
- Smart Delivery and Drug Targeting
- smart Fibres,Fabrics and Wearable Technology
- Smart Grids
- Advances In Mechanical & Computers Engineering
- Advances in Electrical & Electronics Engineering
- Advances in Architecture & Civil Engineering
- Materials in Health Care
- Materials In Defense & Aerospace
- Market Demand & Value

Smart Materials Congress

2019

About Destination Dublin

Dublin is the capital and largest city of Ireland and was briefly the second largest city in the British Empire. The name Dublin comes from the Irish word Dubhlinn, meaning “black, dark” “pool”, referring to a dark tidal pool. Dublin is situated at the mouth of the River Liffey and the Liffey divides the city in two between the Northside and the Southside. The Northside was generally seen as working class; while the Southside was seen as middle to upper-middle class.

Dublin experiences a maritime climate with cool summers, mild winters, and a lack of temperature extremes. The sunniest months are May and June, while the wettest month is October, and the driest month is February. Rainfall is evenly distributed throughout the year.

Dublin has many landmarks and monuments dating back hundreds of years. There are many green-spaces around the city. The Dublin region is the economic centre of Ireland. The road network in Ireland is primarily focused on Dublin. Heuston and Connolly stations are the two main railway stations in Dublin. Dublin is the primary centre of education in Ireland, and is home to top universities. Dublin has a significant literary history, and produced many literary figures.

Dublin has a vibrant nightlife and is reputedly one of Europe’s most youthful cities. There are many pubs across the city centre. Dublin city centre is a popular shopping destination for both locals and tourists. The city has numerous shopping districts, particularly around Grafton Street and Henry Street. The city centre is also the location of large department stores. Dublin is the centre of both media and communications in Ireland, with many newspapers, radio stations, television stations and telephone companies based there. Croke Park is the largest sport stadium in Ireland. Haute Cuisine in Dublin was dominated by French restaurants and chefs. Historically, Irish coffee house were associated with those working in media
