

EuroSciCon

April 21-22, 2022
Florida, USA

2nd Annual Congress on

Smart Materials

April 21-22, 2022 | Florida, USA

Theme: Exploring Recent Technology in the field of Material Science and Nanotechnology

Invitation

We are glad to announce the 2nd Annual Congress on Smart Materials to be held in Florida, USA from April 21-22, 2022 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Scientists and professors from following research fields like; Smart Materials and Technologies, Materials Science and Engineering, Nano Materials and Nanotechnology, Emerging Smart Materials, Nano Robotics, Future of Materials. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and live interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Smart Materials-2022 Conference to network with your expertise and experiences, arm yourself with the latest information to take your department to the next level of research.

We look forward to personally welcoming you to at Florida, USA

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Smart Materials-2022 is the most lucrative platform for Smart Materials Industrialists, Smart Materials Industrialists, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Smart Materials-2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Smart Materials Industrialists, Smart Materials Industrialists Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Smart Materials-2022 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Science, Nano Technologists, Smart Materials and Delegates from Smart Materials Laboratories and Materials Companies, Directors/ Co-Directors of Research based companies across Europe and US who are investing in Smart Materials and and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Technological Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Smart Materials, Institute of Smart Materials. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Smart Materials and Technologies
- Smart Structures
- Materials Science and Engineering
- Nano materials and Nanotechnology
- Smart Biomaterials and Medical Devices
- Polymer Science and Technology
- Smart Textiles Materials
- Ceramics and Composite Materials
- Semiconductor Materials & Nanostructure
- Electronic, Optical and Magnetic Materials
- Emerging Smart Materials
- Materials for Energy and Environmental Sustainability
- Physics and Chemistry of Materials
- Metals, Mining, Metallurgy and Materials
- Mechanics, Characterization Techniques and Equipment's

2022

About Destination Florida, USA

Florida is a state located in the Southern astern region of the United States. Florida is bordered to the west by the Gulf of Mexico, to the northwest by Alabama, to the north by Georgia, to the east by the Bahamas and Atlantic Ocean, and to the south by the Straits of Florida and Cuba; it is the only state that borders both the Gulf of Mexico and the Atlantic Ocean. Spanning 65,758 square miles, Florida ranks 22nd in area among the 50 states, and with a population of over 21 million, is the third-most populous. The state capital is Tallahassee and the most populous city is Jacksonville. The Miami metropolitan area, with a population of almost 6.2 million, is the most populous urban area in Florida and the seventh-most populous in the United States; other urban conurbations with over one million people are Tampa Bay, Orland, and Jacksonville.

Various Native American groups have inhabited Florida for at least 14,000 years. In 1513, Spanish explorer Juan Ponce de León became the first known European to make landfall, calling the region La Florida for its lush greenery and the Easter season (Pascua Florida in Spanish). Florida subsequently became the first area in the continental U.S. to be permanently settled by Europeans, with the Spanish colony of St. Augustine, founded in 1565, being the oldest continuously inhabited city.
