Welcome Message

Meetings International proudly announces Global Experts Meeting On Sexually Transmitted Diseases Dubai, UAE December 06-07, 2017. The Sexually transmitted diseases (STDs) are contaminations that are passed starting with one individual then onto the next through sexual contact. The reasons for STDs are microscopic organisms like bacteria, parasites, yeast, and viruses. STD Meeting 2017 will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will examine various STDs & STIs. The highlights of the upcoming conference includes Sexually Transmitted Diseases (STDs), Bacterial, Viral and Parasitic STDs & STIs, Sexually Transmitted Infections (STIs), STD and Infertility, HIV/AIDS, Hepatitis, Trichomoniasis, Syphilis, Human Papillomavirus (HPV) and Genital Warts, Immunology of STDs & STIs ,Immune responses to HIV ,HIV and Retroviral Diseases Affecting Afro-Asian Continents , Pediatric HIV AIDS, HIV persistence and eradication, HIV diagnosis and Therapy, Understanding and identifying HIV: HIV Related Infections, Co Infections and Cancers, Prevention of Mother-to-Child Transmission, Advanced Techniques involved in STDs, Awareness and knowledge on STDs & STIs, Current focus on virology ,Molecular virology, Advances in antibodies, Recent advancements in HIV vaccine development, STD & STI case study , Policy, advocacy, & community engagement in STI/HIV research. In spite of the way that youthful grown-ups are moderately knowledgeable, with 80 for every percent continuing to advanced education, many of them still have insufficient information on HIV/AIDS. On World Aids Day, which was marked on December 1, the World Health Organization (WHO) called for Dignity above all. Dr. Ala Alwan, WHO Regional Director for the Eastern Mediterranean, stated: It is unacceptable that more than 35 years into the pandemic, stigma and victimization individuals living with HIV are as yet broad among healthcare workers of all disciplines.

There were roughly 36.7 million individuals overall living with HIV/AIDS toward the finish of 2015. Of these, 1.8 million were youngsters (<15 years old).

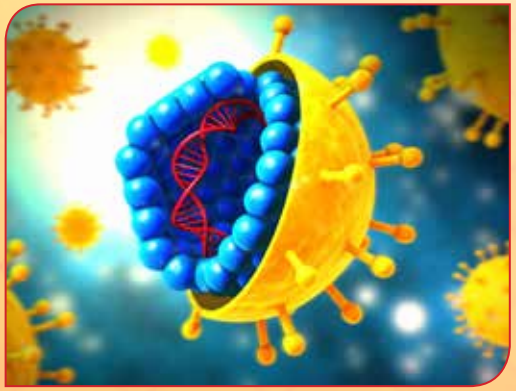

About 2.1 million people worldwide were HIV infected by end of 2015. It incorporates 150,000 youngsters (<15 years). A large portion of these youngsters live in sub-Saharan

Africa and was infected by their HIV-positive mothers amid pregnancy, labor or breastfeeding.

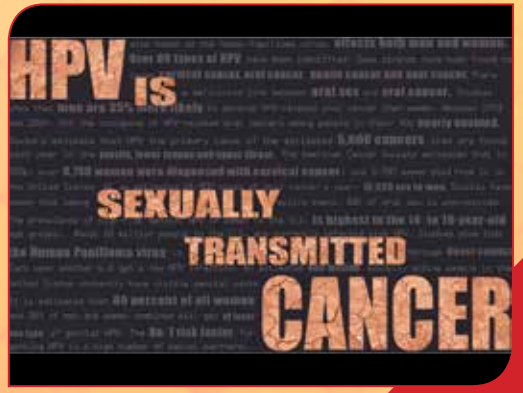

Additionally, the event will examine novel strategies for improving various STDs & STIs treatment, including stability and half-life will also be discussed along with novel routes of administration. Case studies will be presented that illustrate the progress made in developing efficacious drug therapeutics, while leaders in the field point the way to the future for these promising drugs.

Sincerely,
Operating Committee

About Dubai

Dubai is situated on the southeast shore of the Persian Gulf and is the capital of the Emirate of Dubai, one of the seven emirates that make up the nation. Abu Dhabi and Dubai are the main two emirates to have veto control over basic matters of national significance in the nation's legislature. The emirate's model of business drives its economy with the fundamental incomes now originating from tourism, avionics, and money-related services. Dubai was as of late named the best goal for Muslim explorers by Salam Standard. Dubai has as of late pulled in world consideration through numerous imaginative substantial development undertakings and games occasions. The city has turned out to be notable for its high rises and elevated structures, specifically, the world's tallest building, the Burj Khalifa. Dubai has been censured for human rights infringement concerning the city to a great extent South Asian and Filipino workforce. Dubai's property showcase encountered a noteworthy crumbling in 2008–09 after the money related emergency of 2007–08, however, the emirate's economy has made an arrival to development, with an anticipated 2015 spending excess.

In 2014, Dubai's Inn rooms were evaluated as the second most costly on the planet, after Geneva. Dubai was appraised as one of the best places to live in the Middle East by U.S. worldwide counseling firm Mercer.

One of the world's quickest developing economies, Dubai's total national output is anticipated at US$107.1 billion, with a development rate of 6.1% in 2014.Although various center components of Dubai's exchanging framework were based on the back of the oil industry, incomes from oil and petroleum gas represent under 5% of the emirate's revenues. It is assessed that Dubai produces 50,000 to 70,000 barrels of oil a day and generous amounts of gas from seaward fields. The emirate's offer in the UAE's aggregate gas incomes is around 2%. Dubai's oil holds have reduced fundamentally and are relied upon to be depleted in 20 years. Real home and development (22.6%), exchange (16%), and money related administrations (11%) are the biggest supporters of Dubai's economy.

In most recent 10 years, Dubai has changed and turned out to be a standout amongst the most prominent traveler goal on the planet. This is amazing to the point that with each passing year Dubai stuns the world with some new mega projects and stunning spots. With such a variety of choices for vacationers, it is some of the time exceptionally befuddling for guests to choose what to see and where to go So here we are with the rundown of Top Must visit puts in Dubai in 2017.
