

EuroSciCon

September 09-10, 2019
Seoul, South Korea

3rd Annual Conference on

Steel and Civil Engineering

Theme:

Exploring Latest Innovations and Advances in Steel and Civil Engineering

EuroSciCon

Steel Engineering

2019

Invitation

Steel and Civil Engineering 2019 brings together the specialists from all the aspects to meet and discuss the future of Materials Science and Importance of Material science and Technology in today's world. The conference will bring together Directors, Aerospace scientists, Director of Laboratories, Universities, Industries, Professors, Delegates, Research specialists, Post-Doctoral Fellows, Research and Students, Research companies, Market Research and Consulting Firms and all the interested participants willing to enhance and update the knowledge on Steel and Civil Engineering.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 09-10, 2019

Seoul, South Korea

EuroSciCon

Steel Engineering

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

- Publishing of the accepted abstracts in our inordinately indexed journals
- Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.
- Career Guidance Workshops for students and early career researchers
- Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Nurse professionals and Educators accessing the website, Steel Engineering & Technology 2019 is the most lucrative platform for Photonic Engineers, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Steel and Civil Engineering 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

September 09-10, 2019
Seoul, South Korea

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 350+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Steel Engineering

2019

Who'd be attending?

The conference will bring together Directors, Aerospace scientists, Director of Laboratories, Universities, Industries, Professors, Delegates, Research specialists, Post-Doctoral Fellows, Research and Students, Research companies, Market Research and Consulting Firms and all the interested participants willing to enhance and update the knowledge on Material Science and Technology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Steel Concrete Composite Structures
- Steel Structural
- Earthquake-Resistant Structures
- Steel Industry
- Steel Constructions
- Concrete Technology
- Reinforced Concrete
- Prestressed Structures
- Structural Stability
- Structural Health Monitoring
- Structural Engineering
- Structural uses of stainless steel
- Stainless Steel in constructions
- Structural Design of Stainless Steel
- Tests of Concrete
- Benefits of Stainless Steel
- Modern Methods of Constructions
- Material Engineering
- Geotechnical Engineering
- Environmental Engineering
- Transportation Engineering
- Material Engineering
- Geotechnical Engineering

Steel Engineering

2019

About Destination Seoul

Seoul is the capital and biggest city of South Korea. With encompassing Incheon city and Gyeonggi region, Seoul frames the core of the Seoul Capital Area, home to generally 50% of the nation's population. Seoul is positioned as the fourth biggest metropolitan economy on the planet and is bigger than London and Paris.

Deliberately arranged on the Han River, Seoul's history extends back more than two thousand years when it was established in 18 BCE by the general population of Baekje, one of the Three Kingdoms of Korea. The city was later assigned the capital of Korea under the Joseon line. Seoul is encompassed by a hilly and sloping scene, with Bukhan Mountain situated on the northern edge of the city. Similarly, as with its long history, the Seoul Capital Area contains five UNESCO World Heritage Sites: Changdeok Palace, Hwaseong Fortress, Jongmyo Shrine, Namhansanseong and the Royal Tombs of the Joseon Dynasty. More as of late, Seoul has been a noteworthy site of current compositional development – real present-day tourist spots incorporate the N Seoul Tower, the 63 Building, the Lotte World Tower, the Dongdaemun Design Plaza, Lotte World, Trade Tower, COEX, and the Parc1 Tower. Seoul was named the 2010 World Design Capital. As the origin of K-pop and the Korean Wave, Seoul got more than 10 million worldwide guests in 2014, making it the world's ninth most visited city and fourth biggest worker in the travel industry.
