ABOUT OSAKA

Osaka is Japan's third largest city by population and the central metropolis of the Kansai region. It's a food lover's paradise, which led earning Osaka the nickname "the nation's kitchen". Today, that name has evolved to refer to the city's reputation as a gourmand's paradise. October to November is an ideal time to visit Osaka. The weather is similar to spring and the autumn foliage is lovely, especially from around mid- to late-November. This incomparable city is filled with the different attraction points like the Universal Studios Japan, which is one of Osaka's most visited attractions. It is fun no matter what age you are. If you're a fan of instant noodles, then you need to visit the Cup Noodles Museum. It's a free museum dedicated to instant noodles which serves as a tribute to its creator and founder, Momofuku Ando.
