Past Event Report

Meetings International Conference successfully hosted its sixth series on the **"International Conference on Stem Cell"** Hotel Ana Crown Plaza, Narita in **Tokyo, Japan** during **April 16-17, 2025**. The conference was organised with a theme focused on "Exploring the New trends and Horizons of Stem Cell Research," and it was a great success. Eminent keynote speakers from various universities addressed the gathering. The generous response and active participation of the organising committee members played a major role in the success of the conference. On the other hand, we take the opportunity to thank all the speakers, delegates, and participants for providing their valuable support and time for the conference.

About Venue:

Dubai Gulf Arabic pronunciation: is the most populated city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai, the most populated of the 7 monarchies which together form the United Arab Emirates. Established in the 18th century as a small fishing village, the city grew rapidly in the early 21st century with a focus on tourism and luxury, having the second most five-star hotels in the world, and the tallest building in the world, the Burj Khalifa, which is over a half a mile tall.

In the eastern Arabian Peninsula on the coast of the Persian Gulf, it is also a major global transport hub for passengers and cargo. Oil revenue helped accelerate the development of the city, which was already a major mercantile hub. A centre for regional and international trade since the early 20th century, Dubai's economy relies on revenues from trade, tourism, aviation, real estate, and financial services. Oil production contributed less than 1 per cent of the emirate's GDP in 2018. The city has a population of around 3.4 million (as of 2025).
