Invitation

Dear Attendees

Meetings International proudly announces the ***2nd International Conference on Stem Cell Research,Cell and Gene Therapy*** scheduled during ***April 23-24, 2021 in Tokyo, Japan***.

The conference emphasizes the theme "***BRIDGING THE GAP FROM BASIC CELL SCIENCE TO ADVANCED CELLULAR THERAPIES FOR A BETTER LIFE***".

The Stem Cell Research, Cells and Gene Therapy gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in Stem Cell Research and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Stem Cell Research, Cells and Gene Therapy is to provide an international technical forum to showcase recent advances in Gene Therapy, Molecular Medicine and Cellular Therapy conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

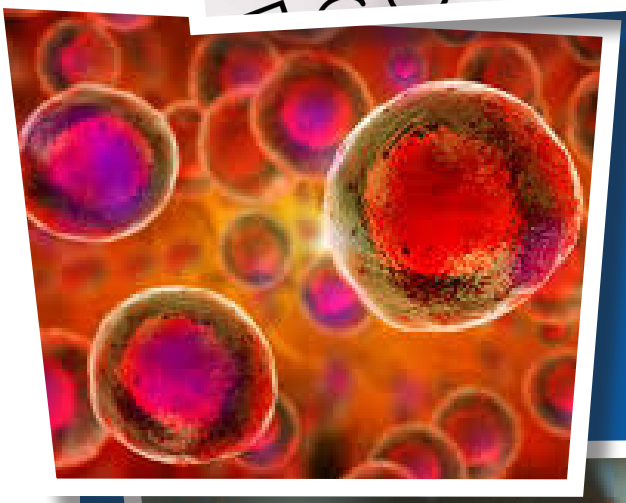

Sincerely,

Operating Committee

Stem Cell

Conference Highlights

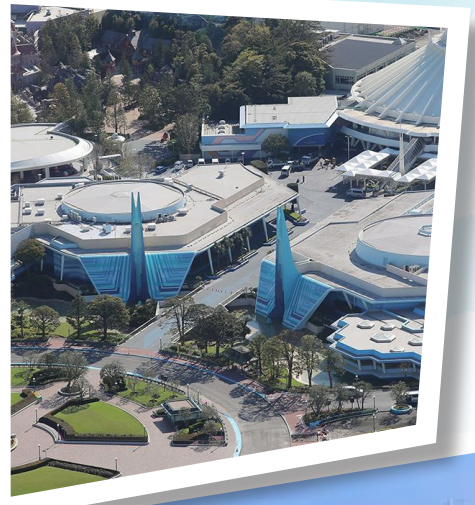

- Stem Cells
- Properties of Stem cells
- Mesenchyme stem cells
- Gene Therapy
- Types of Gene Therapy
- Vectors (Viral methods)
- Vectors (Non-viral methods)
- Next Generation Approach
- Scope for Stem cell Research, Cells and Gene Transfer

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Japan Attractions

Explore Japan

Japan is an island nation of East Asia in the northwest Pacific Ocean. It fringes the Sea of Japan toward the west and stretches out from the Sea of Okhotsk in the north toward the East China Sea and Taiwan in the south. Japan is a piece of the Pacific Ring of Fire and involves an archipelago of 6,852 islands covering 377,975 square kilometers its five fundamental islands, from north to south, are Hokkaido, Honshu, Shikoku, Kyushu, and Okinawa. Tokyo is the nation's capital and biggest city; other significant urban communities incorporate Osaka and Nagoya. Japan is the eleventh most crowded nation on the planet, just as one of the most thickly populated and urbanized. Around three-fourths of the nation's landscape is bumpy, concentrating its populace of 126.2 million on thin seaside fields. Japan is officially partitioned into 47 prefectures and generally separated into eight areas. The Greater Tokyo Area is the most crowded metropolitan zone on the planet, with more than 37.4 million occupancy.

Venue

Tokyo , Japan

Important Dates

Early Bird: October 15, 2020

Abstract Submission Deadline: October 25, 2020
