World Congress on
Surgery, Surgeons and Anesthesia

EuroSciCon

November 29-30, 2021
Webinar

Time Zone: (UTC+00:00) Dublin, Edinburgh, Lisbon, London

Scientific Program: November 29, 2021

Opening Ceremony

Keynote Session

Title: Chronic venous insufficiency: a new concept to understand pathophysiology at the microvascular level-a pilot study
Omar Mutlak, Imperial College London, UK

Scientific Sessions

Sessions: Covid 19 Outbreak | General Surgery | Vascular Surgery | Orthopaedic Surgery | General Anesthesia | Organ Transplantation | Lymphedema | Plastic Surgery | Breast Surgery | ENT Surgery

Title: Wound dehiscence following karydakis procedure–A surgeon's experience
Fahad Al Islam, Nepean Hospital, Australia

Title: The effect of statin on Carotid intima media as assessed using shear wave elastography
Maha Asiri, Imperial College Healthcare-NHS trust, UK

Title: Using CTS5 calculator to predict the 5-10 risk of recurrence and to reduce the number of patients discussed in the breast MDT every week
Salma Ahmed, Wirral University Teaching Hospital, UK

Title: The lip: a histologic and analytical approach of relevance to esthetic plastic surgery
Rola Abdullah Al-Hoqail, The Specialized Clinics Le Institute Riyadh, Saudi Arabia

Title: The impact of Arteriovenous fistula anastomosis angle and diameter on steal syndrome: Ultrasound assessment: pilot study
Fadi Alrehaili, Imperial College Healthcare-NHS trust, UK

Title: Working together in the Surgery: success through multi-disciplinary teamwork
Adnan Malik, University Hospital Coventry and Warwickshire, UK

Title: Significance of ICT in hospital management system
Shiv Singh Sarangdevot, JRN Rajasthan Vidyapeeth University, India

Title: Effectiveness of Anganwadi workers training in monitoring patients with occupation lung disease working in mines around Udaipur region
Shailendra Kumar Mehta, JRN Rajasthan Vidyapeeth University, India

Title: Deliberate Self-harm in people aged 60 years and over: A Major Trauma Centre Experience
Tomisin Omogbehin, St George's University Hospitals NHS Foundation Trust, UK

Title: Management of femoral Pseudoaneurysm
Sandeep Raj Pandey, Norvic Hospital, India

Title: Chronic venous insufficiency: a new concept to understand pathophysiology at the micro-vascular level-a pilot study
Muhammad Sufian Khalid, Royal Blackburn Hospital-East Lancashire, UK

Title: Surgical drains in thyroid surgery: Does one practice fit all?
Asha Ali, St Georges Hospital, UK

Day 1 Completed

Scientific Program: November 30, 2021

Opening Ceremony

Keynote Session

Title: Neuroaxial Anesthesia for COVID-19 parturient
Vakhtang Shoshiashvili, TSMU First University, Georgia

Sessions: Covid 19 Outbreak | General Surgery | Gastro Surgery | Vascular Surgery | Venous Insufficiency | Acute Vein Thrombosis | Anesthesia For Vascular Surgery | Endovascular Surgery | Thoracic Aortic Vascular Surgery

Title: Anatomic dissection of the arterial supply of the lips: an anatomical and analytical approach
Rola Abdullah Al-Hoqail, The Specialized Clinics Le Institute Riyadh, Saudi Arabia

Title: Use of percutaneous cholecystostomy for complicated acute lithiasic cholecystitis: solving or deferring the problem?
Adnan Malik, University Hospital Coventry and Warwickshire, UK

Title: The in-patient admission pathway for parathyroid surgery: Is this practice still appropriate?
Asha Ali, St Georges Hospital, UK

Title: Pressure sores surge; the covid 19 effect
Tomisin Omogbehin, St George's University Hospitals NHS Foundation Trust, UK

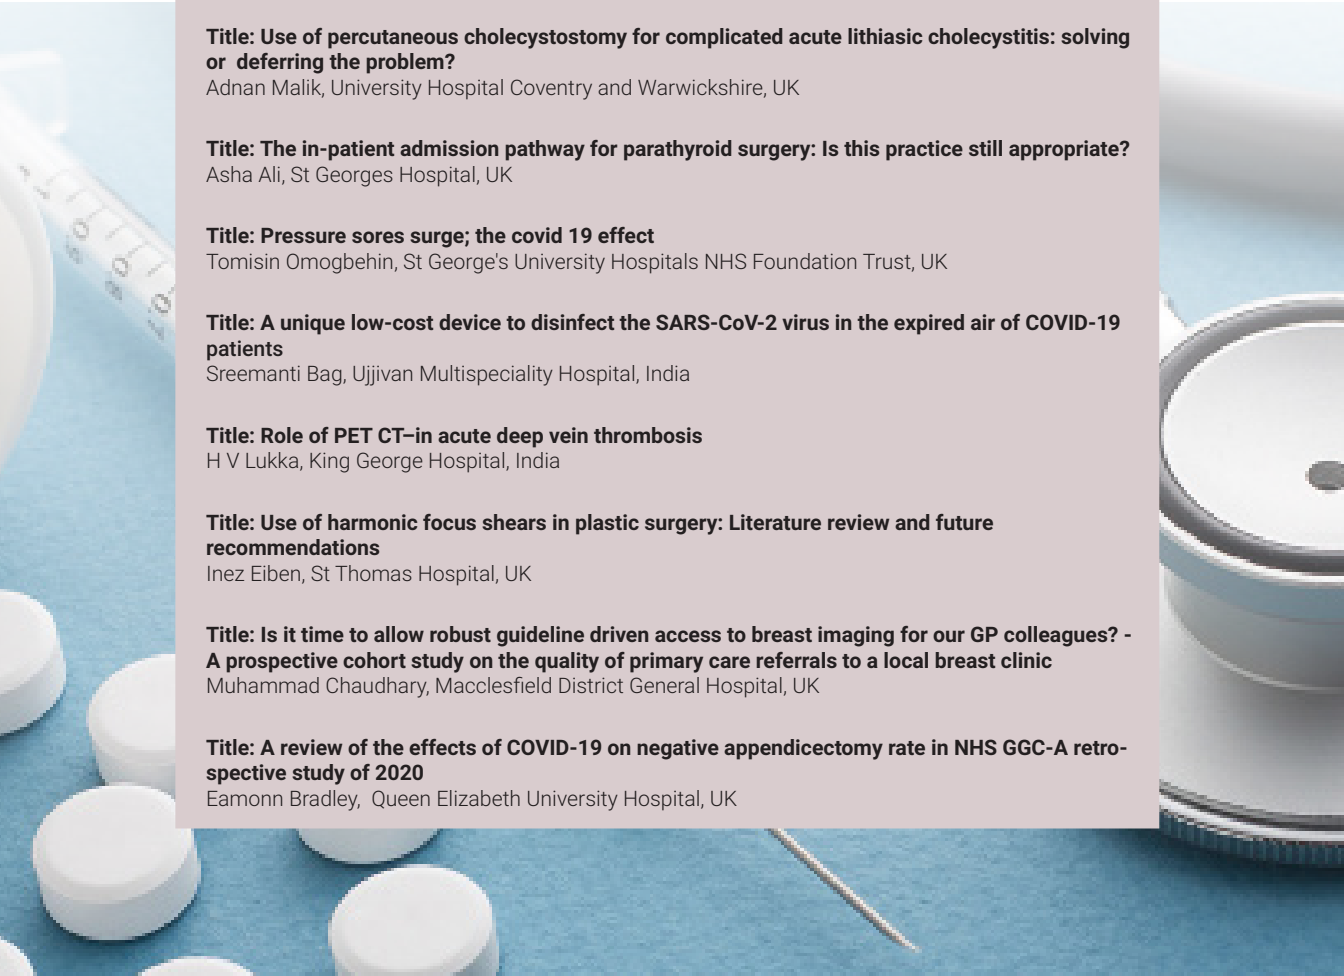

Title: A unique low-cost device to disinfect the SARS-CoV-2 virus in the expired air of COVID-19 patients
Sreemanti Bag, Ujjivan Multispeciality Hospital, India

Title: Role of PET CT–in acute deep vein thrombosis
H V Lukka, King George Hospital, India

Title: Use of harmonic focus shears in plastic surgery: Literature review and future recommendations
Inez Eiben, St Thomas Hospital, UK

Title: Is it time to allow robust guideline driven access to breast imaging for our GP colleagues? - A prospective cohort study on the quality of primary care referrals to a local breast clinic
Muhammad Chaudhary, Macclesfield District General Hospital, UK

Title: A review of the effects of COVID-19 on negative appendicectomy rate in NHS GGC-A retrospective study of 2020
Eamonn Bradley, Queen Elizabeth University Hospital, UK

Title: A picture can speak a thousand words; the strengths and weaknesses of collagen fiber orientation analysis methods in skin fibrosis
Jessica Lynch, St Thomas Hospital, UK

Title: Drug discovery a history of a pharmacognostic approach
Antonio Steardo, University of Oxford, UK

Title: Plastic Surgery Venous Thromboprophylaxis for abdominal and thigh based free flap breast reconstruction surgery
Inez Eiben, St Thomas Hospital, UK

Title: AlphaSMA and PGP 9.5 colocalaisation in skin and keloid histology samples
Jessica Lynch, St Thomas Hospital, UK

Title: Metastatic: Benign Lymph Node Ratio (LNR) and Lymph Node Yield (LNY) as predictors of survival in resected colorectal cancer (CRC)
Salma Ahmed, Wirral University Teaching Hospital, UK

Closing Ceremony
