Keynote-4	**Title:** Autologous bone marrow–derived cells in the treatment of liver disease patients
	David Chakhunashvili, Tbilisi State Medical University, Georgia
	David Chakhunashvili is an Assistant Professor at Tbilisi State Medical University and specialist at National Center for Disease Control & Public Health, Georgia. He has his expertise in innovative research studies and devotion in improving the health for the patients throughout the world.
Group Photo	
Lunch Break	
Oral Sessions	
Session Chair: Zurab Kakabadze,Tbilisi State Medical University, Georgia	
Session Co-chair: Robert L. Cucin, Biosculpture Technology. Inc, United States	
Speaker Slot Available	

Speaker Slot Available	
Speaker Slot Available	
Speaker-1	**Title:** Total gastrectomy with pancreatosplenectomy and D3 lymph node dissection for advanced gastric cancer invading adjacent organs
	Merab Janelidze, Tbilisi State Medical University, Georgia
	Merab Janelidze is a general surgeon at the Western Regional Center for Modern Medical Technologies, Georgian National University. His main interest is the abdominal surgical oncology and organ transplantation.
Speaker-2	**Title:** Tissues transplantation in surgery: the experience of Treviso Tissue Bank Foundation
	Diletta Trojan, Fondazione Banca dei Tessuti di Treviso Onlus, Italy
	Diletta Trojan is director and quality manager and research activities at Department of Clinical Anatomy at Fondazione Banca dei Tessuti di Treviso Piazzale Ospedale. Her research field is: Colon cancer research, mouse models and Genetic tests.
Speaker Slot Available	
Refreshment Break	
Young Researcher Slot Available	
Young Researcher Slot Available	
Speaker-3	**Title:** Use of acellular human amniotic membrane to repair large pharyngocutaneous fistulae developing after radiotherapy and total laryngectomy
	Lika Karalashvili, Tbilisi State Medical University, Georgia
	Lika Karalashvili is a dentist and a scientist at Department of Clinical Anatomy at Tbilisi State Medical University whose research field is the application of bioengineering methods in dentistry.
Speaker-4	**Title:** Nipple reconstruction: A regenerative medicine approach using 3D printed tissue scaffolds
	Denver Khoo, University of Queensland, Australia
	Denver Khoo completed his Bachelor of Science, and Bachelor of Medicine, Bachelor of Surgery at the University of Queensland, Australia. He is an associate lecturer at this institution with a special interest in medical education.
Young Researcher Slot Available	
Young Researcher Slot Available	
Session Adjournment	
Thursday, June 27, 2019 | Day 2	
Day 2 Program will be updating Soon…….	

About New York

New York is a state in the North-eastern United States. One of the world's great cities, New York City (known as "NYC," "The Big Apple")is a global centre for media, entertainment, art, fashion, research, finance, and trade. The bustling, cosmopolitan heart of the 4th largest metropolis in the world and by far the most populous city in the United States, with an estimated 2018 population of 19.86 million and seventh-most densely populated state. NIH funding helped New York over $1.2 billion dollars in to focus on expanding medical care and research since 2009. New York is rapidly growing in public and private healthcare sectors, medical research, and medical technologies.
