About New York

New York is a state in the North-eastern United States. One of the world's great cities, New York City (known as "NYC," "The Big Apple")is a global centre for media, entertainment, art, fashion, research, finance, and trade. The bustling, cosmopolitan heart of the 4th largest metropolis in the world and by far the most populous city in the United States, with an estimated 2018 population of 19.86 million and seventh-most densely populated state. NIH funding helped New York over $1.2 billion dollars in to focus on expanding medical care and research since 2009. New York is rapidly growing in public and private healthcare sectors, medical research, and medical technologies.
