In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Industrialists Plastic Surgery Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Surgery-2022 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Plastic Surgery, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Plastic Surgery and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- New Science In Anti-Aging
- Non-Surgical Aesthetic Procedures
- Paediatric Craniofacial Surgery
- Peri-Oral Rejuvenation
- Phalloplasty
- Reconstructive Surgery
- Rhinoplasty And Otoplasty
- Regenerative Aesthetics Technologies
- Plastic Surgery
- Abdominoplaty
- Body Contouring And Lifting
- Breast Reconstruction
- Challenges In Blepharoplasty
- Cosmetic Surgery
- Head, Neck And Cosmetic Dentistry
- Discoveries In Aesthetic Medicine
- Facial Plastic Surgery

About Destination Florida

Florida is a state located in the Southeastern region of the United States. Florida is bordered to the west by the Gulf of Mexico, to the northwest by Alabama, to the north by Georgia, to the east by the Bahamas and Atlantic Ocean, and to the south by the Straits of Florida and Cuba; it is the only state that borders both the Gulf of Mexico and the Atlantic Ocean. Spanning 65,758 square miles, Florida ranks 22nd in area among the 50 states, and with a population of over 21 million, is the third-most populous. The state capital is Tallahassee and the most populous city is Jacksonville. The Miami metropolitan area, with a population of almost 6.2 million, is the most populous urban area in Florida and the seventh-most populous in the United States; other urban conurbations with over one million people are Tampa Bay, Orlando, and Jacksonville.

About two-thirds of Florida occupies a peninsula between the Gulf of Mexico and the Atlantic Ocean. It has the longest coastline in the contiguous United States, spanning approximately 1,350 miles (2,170 km), not including its many barrier islands. Florida has 4,510 islands that are ten acres (4 ha) or larger in area, the second highest number after Alaska. Much of the state is at or near sea level, and is characterized by sedimentary soil. Florida is the flattest state in the country, with the lowest high point of any U.S. state, at just 345 feet (105 meters). Lake Okeechobee is its largest freshwater lake, and the second-largest located entirely within the contiguous 48 states. Several beaches in Florida have turquoise and emerald-colored coastal waters.
