Synthetic Biology 2018

INTERNATIONAL CONFERENCE ON

SYNTHETIC BIOLOGY

July 16-17, 2018 | Paris, France

Theme: Exploring Advanced Research in Synthetic Biology

http://www.meetingsint.com/conferences/syntheticbiology

Invitation

Synthetic Biology 2018

Meetings International proudly announces the ***International Conference On Synthetic Biology*** scheduled during ***July 16-17, 2018*** in ***Paris, France***. The conference emphasizes the theme "***Exploring Advanced Research in Synthetic Biology***".

Meetings International provides an international dais for scientists and expertise, doctors, researchers, professors and scientific communities to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The Importance of Synthetic Biology have hindered the clinical progress of some RNA-based drugs and have contributed to mixed results in clinical testing. Nevertheless, promising results from recent clinical trials suggest that these barriers may be overcome with improved synthetic delivery carriers and chemical modifications of the RNA therapeutics. This review focuses on the clinical results of siRNA, RNA aptamer, and ribozyme therapeutics and the prospects for future successes.

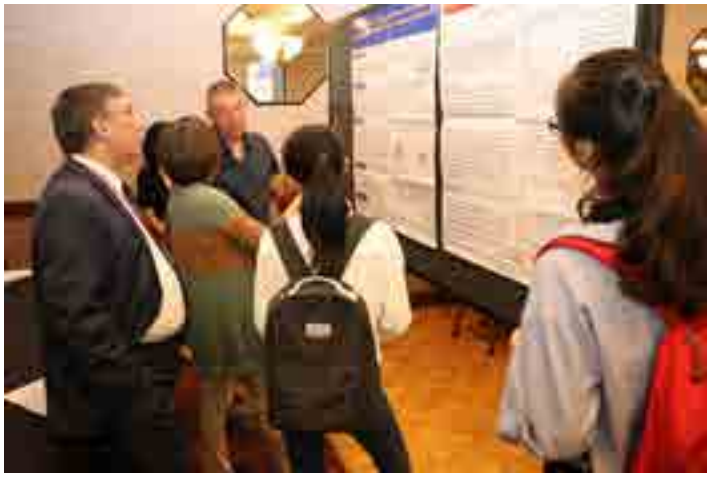

Sincerely,
Operating Committee
Synthetic Biology 2018
Meetings International

Conference Highlights

- Molecular Biotechnology & Plant genetics
- Synthetic Biology
- Advanced Techniques in Synthetic Biology
- Animal Synthetic Biology
- Plant Synthetic Biology
- Genetic & Molecular Engineering
- Mammalian Synthetic Biology (Human Artificial Chromosomes)
- Synthetic Biotechnology
- Synthetic Bioengineering
- Synthetic Genomics
- Gene Therapy in Genetic Engineering
- Computational Synthetic Biology
- Molecular Biology
- Gene Therapy in Synthetic Biology

Meetings Int. offers

A unique platform for top level research and innovation

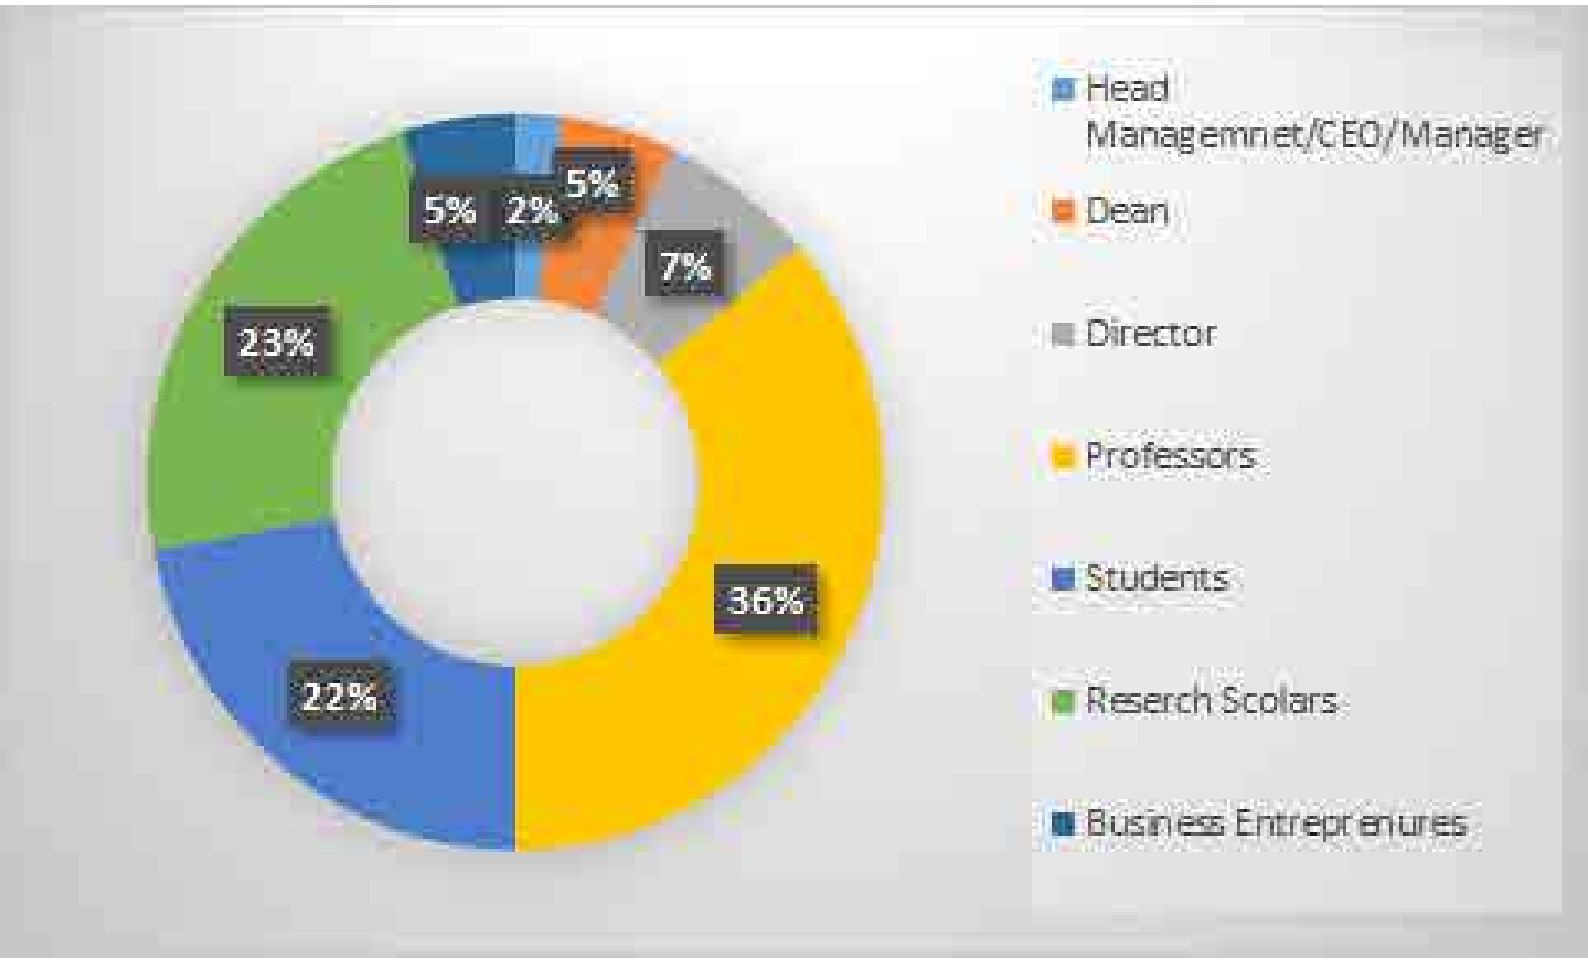

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Paris**

Paris does not need any introduction, as it is the dream destination of millions of people. One of the most visited cities (30 million visitors per year) of the world, Paris is also known as city of fashion. Paris is the city of art, inspiration and love. Paris has many nicknames, among of them “La Ville-Lumiere” or “The city of Light” is more famous. Paris is the most populated city and capital of France.

Paris is Europe’s major center for art, science and finance. Paris is famous for its fashion houses, art museum like The Louvre and monuments like the Eiffel tower. Other visiting places in Paris include; Lascaux’s ancient cave drawings, Lyon’s Roman theater, palace of Versailles , Arc de Triomphe, Center Georges Pompidou, Musee d’Orsay, Musee de orangerie, Palace des Vosges, Tuileries garden, Sacre-Coeur, Pantheon, Seine cruise, Les invalides and many more

PARIS *Attractions*

Venue: *Paris, France*

Important Dates

Early Bird Registration: March 29, 2018

Abstract Submission: March 28, 2018

Registration

http://www.meetingsint.com/conferences/syntheticbiology/registration

Abstract Submission

http://www.meetingsint.com/conferences/syntheticbiology/abstract-submission

Note

All accepted abstracts will be published in respective conference proceedings.

Mail us to know more!
