Synthetic Chemistry 2019 Agenda	
Day 1 June 24, 2019	
09:30-10:00	Registration
10:00-10:10	Introduction by Moderator
Keynote Forum	
10:10-10:45	Title: An analysis of the microporous structure of KOH/boron modified activated carbons
	Mirosław Kwiatkowski, AGH University of Science and Technology, Poland
Networking & Refreshment Break, 10:45-11:05	
11:05-11:40	Title: One Pot Multicomponent Microwave assisted synthesis of Pyrano [2,3-c]pyrazoles and its biological activity against Prostate cancer cell lines
	Ganesh N Yallappa, Govt. Science College, India
11:40-12:15	Title: Sustainable Development of Bioenergy from Agriculture Residues and Environment
	Abdeen Omer, Energy Research Institute (ERI), Nottingham, UK
12:15-12:50	Alkyne annulation: Step-economic construction of core structures of natural products and drugs
	Ruimao Hua, Tsinghua University, China
Group Photo 12:50-13:--	
Lunch Break 13:00-14:00	
14:00-14:35	Title: G.I.T Immunology
	Jean Marie Poffe, Nutrition Cellulaire, Belgium
Oral Session I	
Analytical Chemistry | Clinical Chemistry | Chemical Bonding & Cheminformatics | Food Chemistry	
14:35-15:00	Title: Neurons Contain Photons which Store a Chemical Memory of Cosmos
	Yaccuzzi Polisena V, Pontificia Universidad Católica Argentina – UCA, Argentina
15:00-15:25	Title: Promotion and Implementation of Bioenergy for a Better Environment
	Abdeen Omer, Energy Research Institute (ERI), Nottingham, UK
15:25-15:50	Synthesis of different sulfoxide from its corresponding sulfide by plant enzyme
	Pratibha Yadav, IITD, India
15:50-16:15	Title: The Potential Biologically Active Epoxides Drived from Safranal via thermal and photo epoxidation reactions
	Suzan Khayyat,University of Jeddah, Saudi Arabia
Networking & Refreshment Break, 16:15-16:30	
Session Adjournment	
Day-2 Program will be updated soon
