Tissue Engineering 2020

Dear Colleagues

Meetings International extends its welcome to "7th International Conference on Tissue Engineering & Regenerative Medicine" scheduled on December 14-15, 2020 in Macau, China, with the theme of "Trends, challenge, and leadership in tissue engineering and regenerative medicine".

Tissue Engineering 2020 will serve an excellent experience and opportunities to enhance one's career. Join us in Macau. It is comprised of 13 tracks designed to offer comprehensive sessions that address current trends in Tissue Engineering & Regenerative Medicine, and many more. Tissue Engineering & Regenerative Medicine composed of symposiums by world class researchers and experts.

Conference Highlights :

- Tissue Engineering
- Regenerative Medicine
- Bio Materials
- Scaffolds
- Stem Cell and Regenerative Medicine
- Bio Medicine
- Cell and Gene Therapy
- Cancer Stem Cells
- Bio Medical Engineering
- Regenerative Rehabilitation
- Anti-Aging Medicine
- 3D Bio Printing And Bio Fabrication

Day-1
Registration
Session Introduction
Keynote/ Plenary Sessions
Plenary/Keynote-1 (Academia)
Plenary/Keynote-2 (Industry)
Plenary/Keynote-3
Coffee Break & Networking
Plenary/Keynote-4 (Academia)
Oral Presentations
Speaker 1
Speaker 2
Speaker 3
Speaker 4 (Industry presentation)
Panel Discussion/ QA Session
Lunch Break & Networking
Post Lunch Session Introduction & Group Photograph
Post Lunch Oral Presentations
Speaker 5
Speaker 6 (Industry Presentation)
Speaker 7 (Solution Providers Presentation X2)
Speaker 8
Panel Discussion/ QA Session
Video Sessions / e-Poster
Video Presentation 1
Video Presentation 2
Coffee Break & Networking
Workshop/ Special Session
Tissue Engineering
Tissue Engineering
Award Ceremony/ Closing remark Day 1
Day-2
Registration

Session Introduction
Keynote/ Plenary Sessions
Plenary/Keynote-1 (Academia)
Plenary/Keynote-2 (Industry)
Plenary/Keynote-3 (Solution Provider)
Coffee Break & Networking
Oral Presentations
Speaker 1
Speaker 2 (Industry presentation)
Speaker 3
Speaker 4
Panel Discussion/ QA Session
Workshop/Symposium
Lunch Break & Networking
Poster Presentation
Young Researcher Presentation
Speaker 5
Speaker 6
Speaker 7
Speaker 8
Panel Discussion/ QA Session
Coffee Break & Networking
Video Sessions/ e-poster
Award Ceremony/ Closing remark Day 2

About Macau

Macau is one of the most fascinating destinations in Asia with its old-world Sino-European architecture and culture existing side by side with the modern and lavish lifestyle - the result of its casinos and tourist industry. The city's rich past is seen everywhere, in its fine architecture and well-preserved colonial buildings, and the historic center of Macau has been included in the list of China's most significant World Heritage Sites. Macau is known as the Vegas of Asia. There are plenty of casinos in Macau, and many of them are so beautiful that the gambling isn't even the main attraction.

3rd Annual Cell Congress
Day 1, June 24, 2019 |New York,USA
Registration
Opening Ceremony
Introduction
Keynote Forum
Title: Electronic water can reduce oxidative stress in cancer and diabetes patients for 3 weeks drinking
Masahiro Onuma President of Trisguide ltd Japan,
He is the President Of TriSGuide Ltd Tokyo, Japan
Title: Efficient method for generating reporter based human hematopoietic stem cells for high throughput screening platform
Dharmeshkumar Patel, Stem Cell Institute, University of Minnesota, Minneapolis
He have gained professional experience in the field of stem cell, neuroscience and cancer immunology where he have been involved in generating and characterizing various pluripotent stem cells, immune and neural cell types using mass flow cytometry as well as Immunofluorescence microscopy
Title: Characteririzations of terahertz wave of transfer of nerve impulse along the nerve fiber cells in life systems
Dr.Pang Xiao Feng, University of Electronic Science and Technology of China
He is the biological energetics, in Nova Science Publisher
Title: Assessing clinical implications and perspectives of the pathophysiological effects of erythrocytes and plasma free hemoglobin in autologous biologics for use in musculoskeletal regenerative medicine therapies."
Dr.Peter Everts, Executive Director of Gulf Coast Biologics
He is the Chief Scientific Officer EmCyte Corporation Program Director at Gulf Coast Biologics
Keynote Slot Available
Group Photo and Tea Break
Workshop Slot Available
Lunch Break
Oral Session - I:
Title: Bacteria Genus finding prediction to provide further progress of pathogenesis and biomedical applications
Rassol Housen Pure, Payame Noor University, Iran
He is Inventor & Author in the field of advanced medical science
Title: "Implementing modern Cell engineering and Process development approaches for affordable and sustainable biosimilar manufacturing
Sanjeev Gupta Ipca Laboratories Ltd, Mumbai, India
He is Biotechnologist with over 18 years of industrial experience in Biosimilar development
Title: Malignant Pathology of Brain Meningioma Tumor as the Best Predictor for Mortality and Recurrency rate of Meningioma
Mojtaba Mafi, Teheran University, Iran
He is Medical Doctor,Physician OCM World Scientific Federation on Neuroscience International Academic Speaker Scientist
Title: An improved bio fabrication process to enhance cell survival of cartilage regeneration and functionality of the osteoarthritic knee when enriched with Bone Marrow
José Manuel Baena
He is the founder of Breca Health Care, pioneer in 3D printed custom-made implants for orthopaedic surgery, and Regemat 3D, The first Spanish bioprinting company
Title: The Battle against Different Fungal Diseases in Wheat by both Conventional and Modern Approaches
Baljeet Singh, Lovely Professional Unoiversity
He is a Biotechnologist

Title: The Cell Image Library: An Open Source Central Repository and Research Platform for Microscopy Images
David Orloff, Director, Cell Image Library – National Center for Microscopy and Imaging Research, University of California, San Diego
Speaker Slot Available
Speaker Slot Available
Tea Break
Session Adjournment
Day 2, June 25, 2019 |New York,USA
Keynote Foroum
Title: Structure-based screening for protein phosphatase 1 interactome mapping
Julia de Vasconcellos Castro, Columbia University Medical Center, USA
Julia de Vasconcellos Castro research interests combine her scientific and chemical reaction engineering training and expertise to solve biological biomedical problems. Her work falls in a variety of categories including Metabolomics, Genomics, Proteomics, Microbiology, Biofuels, Tissue Engineering and Systems Biology
Title: Cellular pathology of Alzheimer's disease
Mojtaba Mafi, Teheran University, Iran
Mojtaba Mafi graduated from Tehran University, School of Medicine with honor. He studied in neurosurgery ward and graduated with a score with thesis on Meningioma Brain Tumor during 6 years. With continuing his practice with special consideration on psychosomatic disorders
Refreshment Break
Title: Biobanks, data sharing and the risks of privacy breaches: rules and models to control security in the -omics era
Elena Salvaterra
Elena Salvaterra Robust experience as regulatory project manager in clinical research with a focus on human biobanks. Relevant experience as marketing and sales specialist in biomedical and biotech field. Equipment, services.
Title: Early cancer screening and prophylactic immunotherapy â€“ A stem cell approach
Anand Kumar Arachimani
He is the Managing Director of AutoStem Laboratories.
Title: Angiotensin converting enzyme (I/D) analysis and congenital heart diseases in Pakistani population
Lunch Break
Afsheen Arif The Karachi Institute of Biotechnology and Genetic Engineering, Pakistan
Afsheen Arif has an expertise in rare genetic disorders. She has done her Ph.D on congenital heart disorders and their genetics in Pakistan for the first time.
Title: Baculovirus as a new stand-alone prophylactic and therapeutic immunostimulatory agent against malaria
Talha Bin Emran, BGC Trust University, Bangladesh□
Talha Bin Emran has been working as an assistant professor in the Department of Pharmacy at the BGC Trust University Bangladesh.
Title: Production of agar from algal sea weed from coastal sites of Karachi
Noureen Arif , Bahria University, Karachi
Noureen Arif is a Ph.D student at Bahria University, Karachi ,Pakistan
