Invitation

Tissue Engineering 2020

Dear Attendees,

Meetings International proudly announces the 7th International Conference on Tissue Engineering & Regenerative Medicine scheduled during December 14-15, 2020 in Macau, China. The conference emphasizes the theme "Trends, Challenge, and Leadership in Tissue Engineering & Regenerative Medicine".

At the 'International Conference on Tissue Engineering & Regenerative Medicine', Meetings International promotes broad scope research and peer review at a wide range of specialists around the world. The key strategic objective of Meetings Int. is to communicate science and medical research between academia, and industry. Through inspiring sessions and tons of networking, you will learn to be even more audacious and bold than you are now and free to grow your mind, grow your business, and grow your bottom-line. We can relieve you of the time and resource draining elements of the events that you plan to hold. From planning to coordinating, start to finish; we will be there to ensure you take the accolades for yet another brilliant program.

Sincerely,

Operating Committee

Explore Macau

Macau is one of the most fascinating destinations in Asia with its old-world Sino-European architecture and culture existing side by side with the modern and lavish lifestyle - the result of its casinos and tourist industry. The city's rich past is seen everywhere, in its fine architecture and well-preserved colonial buildings, and the historic center of Macau has been included in the list of China's most significant World Heritage Sites. Macau is known as the Vegas of Asia. There are plenty of casinos in Macau, and many of them are so beautiful that the gambling isn't even the main attraction. The most popular ones include the Grand Lisboa, The Venetian Casino, and Galaxy among others. Experience shopping with over 350 international shops, be dazzled by the street performers, or take a ride on an authentic Venetian gondola, all at the resort.
