About Macau

Macau is one of the most fascinating destinations in Asia with its old-world Sino-European architecture and culture existing side by side with the modern and lavish lifestyle - the result of its casinos and tourist industry. The city's rich past is seen everywhere, in its fine architecture and well-preserved colonial buildings, and the historic center of Macau has been included in the list of China's most significant World Heritage Sites. Macau is known as the Vegas of Asia. There are plenty of casinos in Macau, and many of them are so beautiful that the gambling isn't even the main attraction.
