Tentative Program

7th International Conference on
Tissue Engineering & Regenerative Medicine

December 14-15, 2020
Macau, China

Theme: Trends, challenge, and leadership in tissue engineering and regenerative medicine

https://www.meetingsint.com/conferences/tissueengineering

Dear Colleagues

Meetings International extends its welcome to "7th International Conference on Tissue Engineering & Regenerative Medicine" scheduled on December 14-15, 2020 in Macau, China, with the theme of "Trends, challenge, and leadership in tissue engineering and regenerative medicine".

Tissue Engineering 2020 will serve an excellent experience and opportunities to enhance one's career. Join us in Macau. It is comprised of 13 tracks designed to offer comprehen-sive sessions that address current trends in Tissue Engineering & Regenerative Medicine, and many more. Tissue Engineering & Regenerative Medicine composed of symposiums by world class researchers and experts.

Conference Highlights:

- Tissue Engineering
- Regenerative Medicine
- Bio Materials
- Scaffolds
- Stem Cell and Regenerative Medicine
- Bio Medicine
- Cell and Gene Therapy
- Cancer Stem Cells
- Bio Medical Engineering
- Regenerative Rehabilitation
- Anti-Aging Medicine
- 3D Bio Printing And Bio Fabrication

Submit Your Abstract!!

Abstract Submission Link: www.meetingsint.com/conferences/tissueengineering/abstract-submission1

Day-1
Registration
Session Introduction
Keynote/ Plenary Sessions
Plenary/Keynote-1 (Academia)
Plenary/Keynote-2 (Industry)
Plenary/Keynote-3
Coffee Break & Networking
Plenary/Keynote-4 (Academia)
Oral Presentations
Speaker 1
Speaker 2
Speaker 3
Speaker 4 (Industry presentation)
Panel Discussion/ QA Session
Lunch Break & Networking
Post Lunch Session Introduction & Group Photograph
Post Lunch Oral Presentations
Speaker 5
Speaker 6 (Industry Presentation)
Speaker 7 (Solution Providers Presentation X2)
Speaker 8
Panel Discussion/ QA Session
Video Sessions / e-Poster
Video Presentation 1
Video Presentation 2
Coffee Break & Networking
Workshop/ Special Session
Tissue Engineering
Tissue Engineering
Award Ceremony/ Closing remark Day 1
Day-2
Registration

Session Introduction
Keynote/ Plenary Sessions
Plenary/Keynote-1 (Academia)
Plenary/Keynote-2 (Industry)
Plenary/Keynote-3 (Solution Provider)
Coffee Break & Networking
Oral Presentations
Speaker 1
Speaker 2 (Industry presentation)
Speaker 3
Speaker 4
Panel Discussion/ QA Session
Workshop/Symposium
Lunch Break & Networking
Poster Presentation
Young Researcher Presentation
Speaker 5
Speaker 6
Speaker 7
Speaker 8
Panel Discussion/ QA Session
Coffee Break & Networking
Video Sessions/ e-poster
Award Ceremony/ Closing remark Day 2

About Macau

Macau is one of the most fascinating destinations in Asia with its old-world Sino-European ar-chitecture and culture existing side by side with the modern and lavish lifestyle - the result of its casinos and tourist industry. The city's rich past is seen everywhere, in its fine architecture and well-preserved colonial buildings, and the historic center of Macau has been included in the list of China's most significant World Heritage Sites. Macau is known as the Vegas of Asia. There are plenty of casinos in Macau, and many of them are so beautiful that the gambling isn't even the main attraction.

3rd Annual Cell Congress
Day 1, June 24, 2019 |New York,USA
Registration
Opening Ceremony
Introduction
Keynote Forum
Masahiro Onuma, Trisguide ltd, Japan
Title: Electronic water can reduce oxidative stress in cancer and diabetes patients for 3 weeks drinking
José Manuel Baena, Centre of Regenerative Medicine, Mexico
Title: An improved bio fabrication process to enhance cell survival of cartilage regeneration and functionality of the osteoarthritic knee when enriched with Bone Marrow
Peter Everts, Gulf Coast Biologics, USA
Title: Assessing clinical implications and perspectives of the pathophysiological effects of erythrocytes and plasma free hemoglobin in autologous biologics for use in musculoskeletal regenerative medicine therapies.
Pang Xiao Feng, University of Electronic Science and Technology, China
Title: Characteririzations of terahertz wave of transfer of nerve impulse along the nerve fiber cells in life systems
Oral Presentation
Afsheen Arif, University of Karachi, Pakistan
Title: Angiotensin converting enzyme (I/D) analysis and congenital heart diseases in Pakistani population
David Orloff, University of California, California
Title: The Cell Image Library: An Open Source Central Repository and Research Platform for Microscopy Images
Talha Bin Emran, BGC Trust University, Bangladesh
Title: Baculovirus as a new stand-alone prophylactic and therapeutic immunostimulatory agent against malaria
Julia de Vasconcellos Castro, Columbia University Medical Center, USA
Title: Structure-based screening for protein phosphatase 1 interactome mapping
Rassol Housen Pure, Payame Noor University, Iran
Title: Bacteria Genus finding prediction to provide further progress of pathogenesis and biomedical applications
Baljeet Singh, Lovely Professional Unoiversity, India
Title: The Battle against Different Fungal Diseases in Wheat by both Conventional and Modern Approaches
Mojtaba Mafi, Teheran University, Iran
Title: Malignant Pathology of Brain Meningioma Tumor as the Best Predictor for Mortality and Recurrency rate of Meningioma
Elena Salvaterra, AutoStem Laboratories, Italy
Title: Biobanks, data sharing and the risks of privacy breaches: rules and models to control security in the -omics era
Speaker Slot Available!
