Explore Paris

Paris, city and capital of France, set within the north-central part of the country. The fashionable town has spread from the island (the Île de la Cité) and far beyond both banks of the Seine. For centuries Paris has been one of the world's most important and attractive cities. It is appreciated for the opportunities it offers for business and commerce, for study, for culture, and for entertainment; its gastronomy, haute couture, painting, literature, and intellectual community especially enjoy an enviable reputation. Paris has maintained its importance as a centre for education and intellectual pursuits. Paris is unarguably one of the most beautiful cities in the world and it is the city of art and fashion. There are a lot of things to do and see in Paris like climb to the top of the Eiffel Tower, stroll down the Champs Elysées, visit the Louvre, see many shows and exhibitions, or just wander on the banks of the Seine. The nightlife is made with the renowned cabarets such as the Moulin Rouge, Lido and the Crazy Horse.
