July 23-25, 2018 | Osaka, Japan

Theme: *Understanding the Importance of Vaccines in the Present Era*

http://www.meetingsint.com/conferences/vaccine

Invitation

Meetings International proudly announces the ***International Conference on Vaccines & Vaccination*** scheduled during ***July 23-25, 2018*** in ***Osaka, Japan***. The conference emphasizes the theme "***Understanding the Importance of Vaccines in the Present Era***".

Meetings International provides an international dais for scientists and professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of Vaccines has come into spotlight in the recent years. Vaccination is one of the most successful achievements in medicine. Vaccine Immunology upgrades our comprehension of the resistant reaction in wellbeing and illness by exhibiting critical clinically applicable research, including new creature models for human immunologic infections. Vaccination itself cannot cause formation of disease against which it is intended. Vaccines have historically been the most effective means to fight and eradicate infectious diseases.

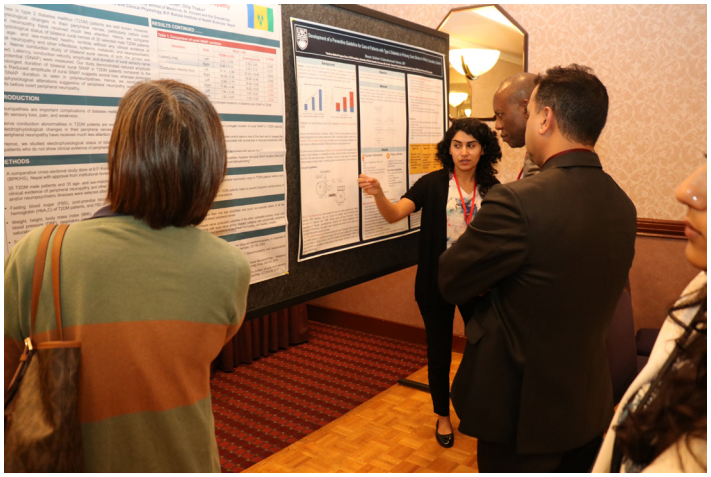

Sincerely

Operating Committee
CEO and Founder
Meetings International PTE LTD.

- HIV/AIDS Vaccines

Meetings Int. offers

A unique platform for top level research and innovation

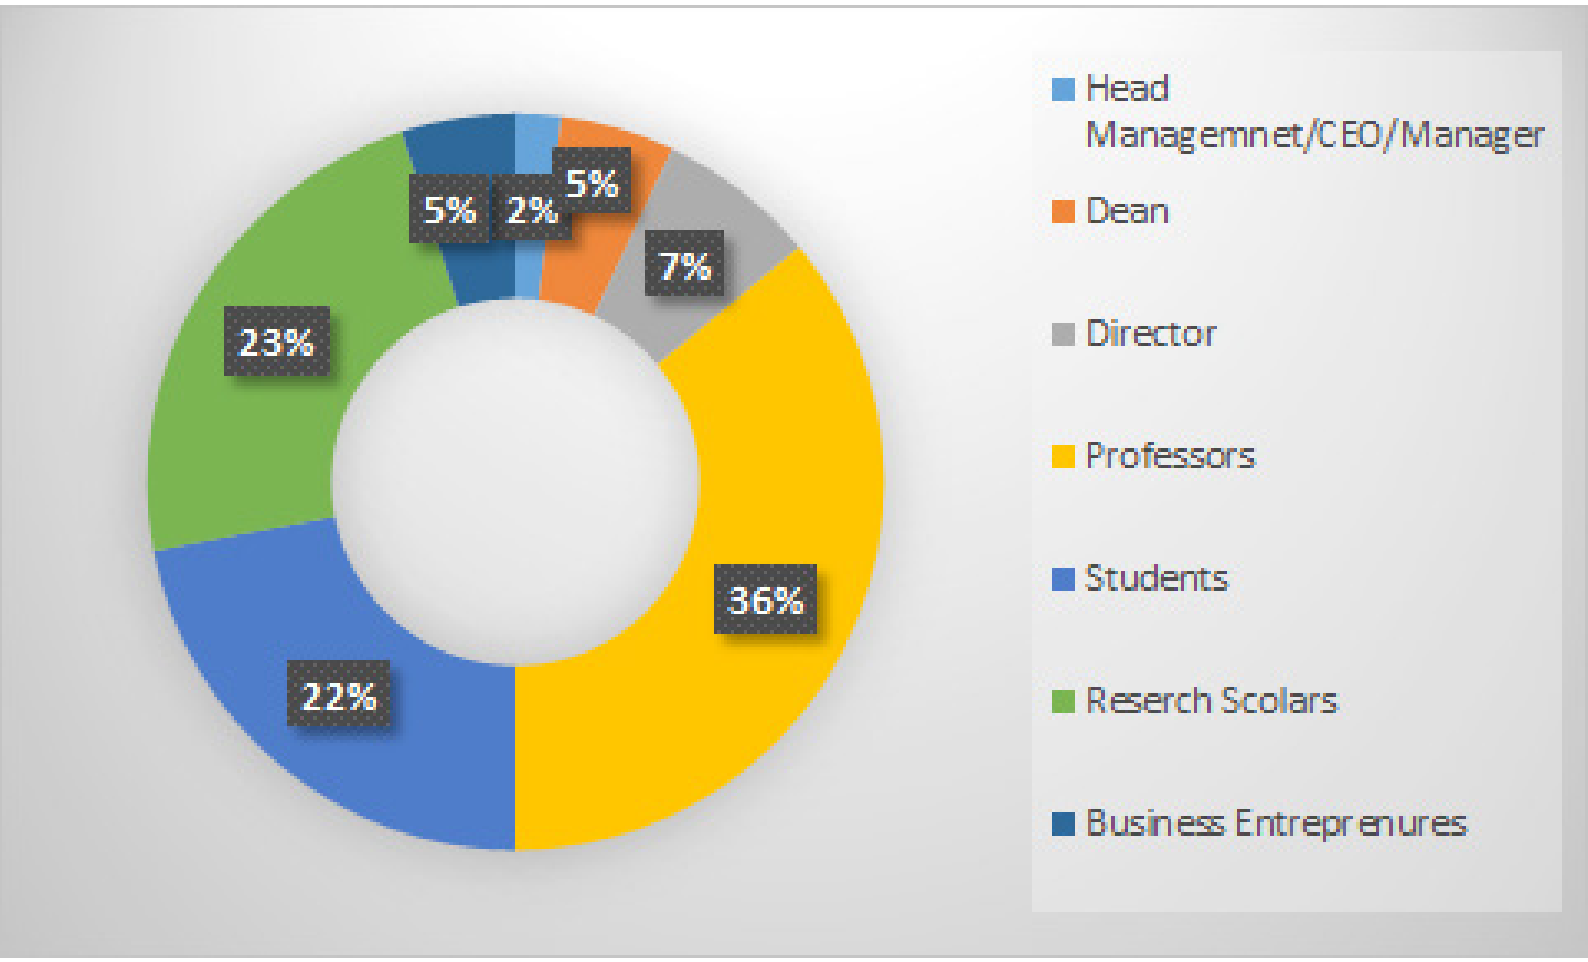

WE VALUE

To identify the future directions of research

Peer review and high quality publication

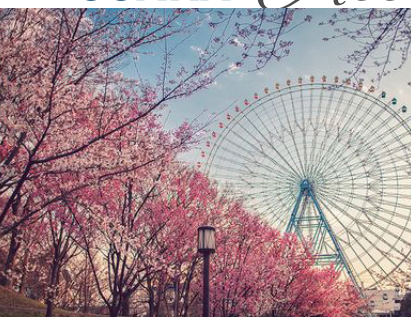

Quality research

Explore **Osaka**

Osaka is a large port city and commercial center on the Japanese island of Honshu. It's known for its modern architecture, nightlife and hearty street food. Osaka was evaluated in Research & Development only. Osaka currently markets vaccines in Japan only and is growing its vaccine pipeline, including R&D projects for dengue and chikungunya. Osaka performs above average in Research & Development, and has clear access provisions for its late-stage vaccine candidate. While it does not currently market vaccines in countries in scope, it is taking steps to support affordability and supply of vaccines in its pipeline. The Travel and Tourism Competitiveness Report 2017 positions Japan fourth out of 141 countries for the most part, which was the best in Asia. Japan got for the most part high scores in all viewpoints, especially human services and cleanliness, wellbeing and security, social resources and business travel.
